ORGANIZATION AND FUNCTIONS OF THE GOVERNMENT OF THE REPUBLIC OF KOREA

MAY, 1966

PUBLIC SERVICES DIVISION
USOM/K

F O R E W O R D

May 1, 1966

This 1966 edition of the Organization and Functions of The Government of The Republic of Korea is an unofficial compilation of the present organization and functions as derived from the Constitution, the Organization Law, and pertinent Presidential Decrees. The Ministries are listed in order of seniority as established by the Organization Law.

The pamphlet was prepared initially for the Third General Assembly of the Eastern Regional Organization for Public Administration, held in Seoul, November 7-17, 1964. It has proven to be a popular document among foreign groups as a quick reference, or guide, to the Korean Government.

Since the prior issuance (October 1, 1964) the following major organizational changes have occurred:

1. Ministry of Foreign Affairs:

   Established a new position, Assistant Vice-Minister.

2. Ministry of Finance:

   a. Established two new positions, Assistant Vice-Minister for Finance and Assistant Vice-Minister for Taxation.

   b. Reorganized the Taxation Bureau into a Tax System Bureau.

   c. Established a new Office of National Tax Administration.

3. Ministry of Agriculture and Forestry:

   a. Established a new Office of Fishery.

   b. Abolished the Marine Products Bureau.

The document was assembled by Mr. Lee Chul Koo under the general direction of Mr. H. J. Datta of the Public Services Division.

Frank M. Landers, Chief
Public Services Division

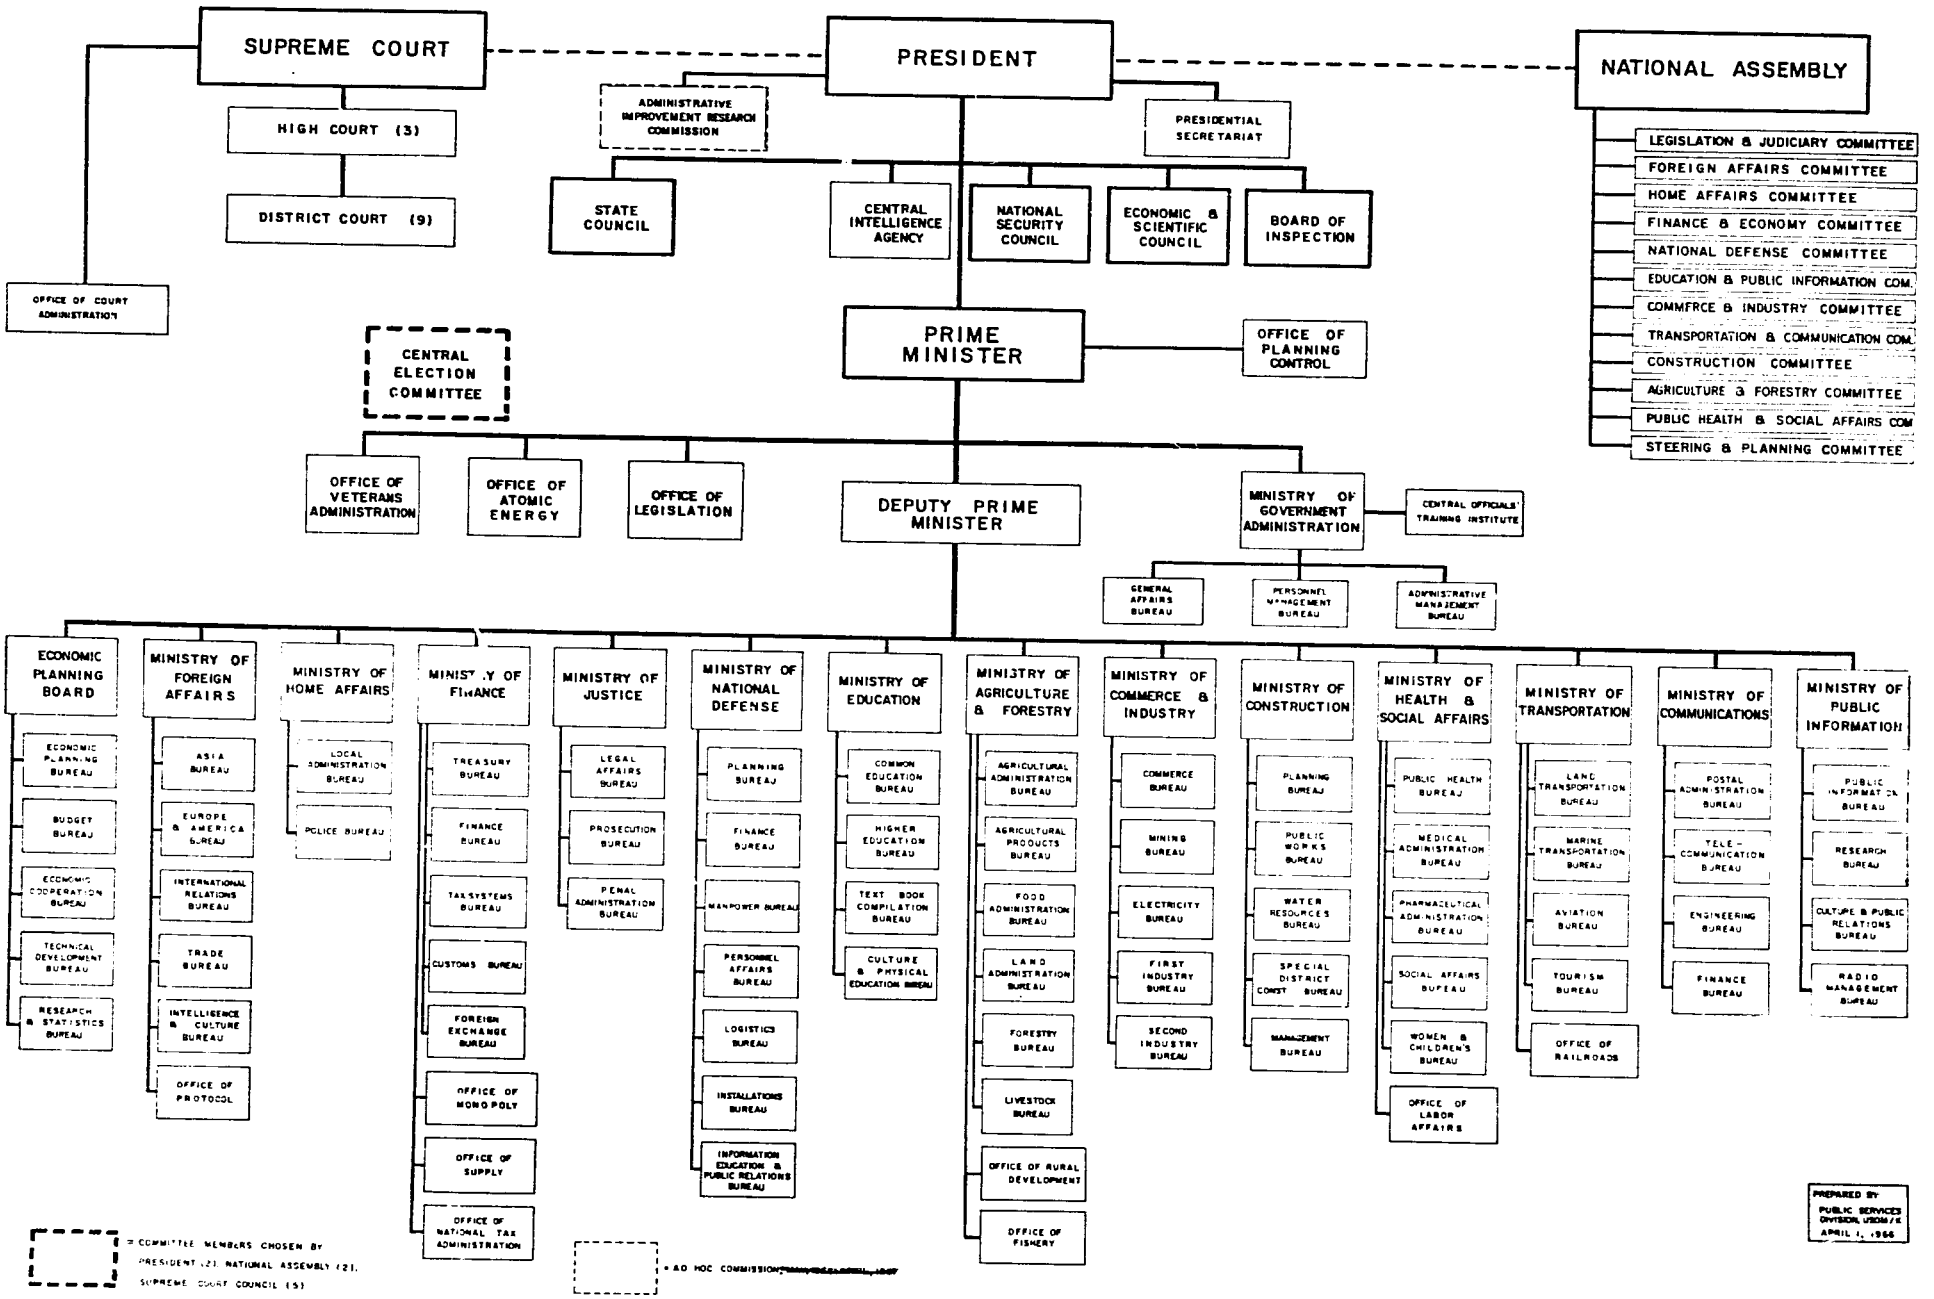
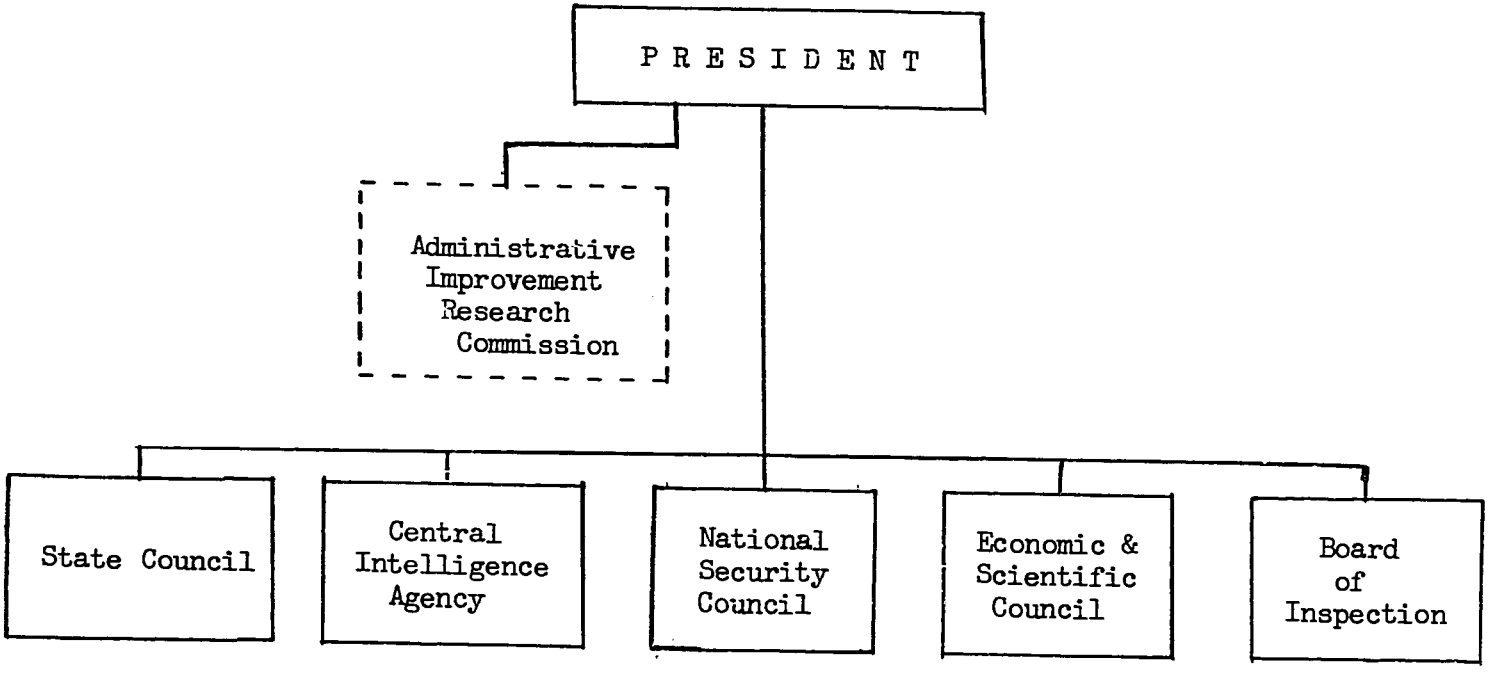
ORGANIZATION OF ROK GOVERNMENT



THE PRESIDENT



PRESIDENT

Established by the Constitution of the Republic of Korea, 7/17/1948
Last Amended, 12/26/1962.

The President is the Chief Executive of the State and represents the State vis-a-vis all foreign states. The President is the Chairman of the State Council, the highest executive policy making body, and the Supreme Commander of the National Armed Forces. The President shall conclude and ratify treaties, accredit, receive or dispatch diplomatic envoys, declare war and conclude peace. The President shall appoint Ministers, Office Directors, Ambassadors, Heads of government agencies, Provincial Governors, Judges, and other senior public officials in accordance with the provisions of the Constitution and the National Public Officials Law and he may also grant ammnesty, commutation, and rehabilitation, and award decorations and other honors in accordance with the provisions of Law. In order to fulfill his executive responsibilities the President may issue Presidential Decrees and may submit proposals for necessary legislation to the National Assembly; also he shall have power to issue ordinances having the effect of law only when it is necessary for the national security under a state of armed hostility. The President may veto the bills passed by the National Assembly, but his veto may be overridden by a majority vote when a two-thirds quorum is present.

The President shall be elected by a universal, equal, direct and secret ballot of the people for a term of four years, and may be re-elected only for one term. In the event of vacancy in the office of the President with a remaining term of two years or less, the President shall be elected by the National Assembly. A presidential candidate shall be recommended by the political party to which he belongs. The President shall be elected within seventy to forty days before the term of the incumbent President expires.

STATE COUNCIL

Established by the Constitution of the Republic of Korea, 7/17/1948
Last Amended, 12/26/1962.

The State Council shall be composed of the President, the Prime Minister and the members of the State Council (the ministers of each ministry and ministers without portfolio). The President shall be the Chairman and the Prime Minister shall be Vice-Chairman of the Council. Members of the State Council shall be appointed by the President upon the proposal of the Prime Minister, and council members shall number no morethan twenty and no less than ten.

The State Council approves executive general policies by majority vote and assists the President in supervising and coordinating the various agencies of the Executive Branch. The following matters shall be referred to the State Council for deliberation:

1) Basic plans on State affairs, and general policies of the Executive:

2) Declaration of war, conclusion of peace and other important matters pertaining to foreign policy;

3) Proposed treaties, legislative bills and proposed ordinances of the President;

4) Proposed budgets, closing accounts, plans for disposal of State properties, conclusion of contracts creating financial obligation for the State, and other important financial matters;

5) Proclamation and termination of state of siege;

6) Important military affairs;

7) Matters pertaining to the request for convening the extraordinary sessions of the National Assembly;

8) Awarding of honors;

9) Granting of ammnesty, commutation and rehabilitation;

10) Matters regarding the determination of jurisdiction between executive Ministers;

11) Basic plans concerning delegation or allocation of pwers within the Executive;

12) Evaluation and analysis of the administration of State affairs;

13) Formulation and coordination of important policies of each executive Ministry;

14) Impeachment for the dissolution of a political party;

15) Examination of petitions pertaining to executive policies submitted or referred to the Executive;

16) Appointment of the Prosecutor General, the Presidents of the National Universitties, Ambassadors, the Chiefs of Staff of each armed service, the Marine Corps Commandant, Diplomatic Ministers, other public officials designated by law, and the managers of important state-operated enterprises;

17) Other matters presented by the President, the Prime Minister or a State Council member.

The Director of the Office of Legislation, the Director of the Office of Veterans Administration, the Chief of the Presidential Secretariat, the Vice Minister of the Ministry of Government Administration, the Chief of the Prime Minister's Secretariat, and the Director of the Office of Planning and Control may attend the State Council meetings as observers.

CENTRAL INTELLIGENCE AGENCY

The Central Intelligence Agency is established under the jurisdiction of the President in order to take charge of matters concerning information on and maintenance of public safety, and investigation of crimes which affect the security of the State.

NATIONAL SECURITY COUNCIL

The National Security Council is established under the jurisdiction of the President to advise the President on the formulation of foreign, military and domestic policies related to the national security prior to their deliberation by the State Council. The meetings of the National Security Council shall be presided over by the President.

The Council shall be composed of the President, the Prime Minister, the Minister of the Economic Planning Board, the Minister of Foreign Affairs, the Minister of Home Affairs, the Minister of Finance, the Minister of National Defense, the Ministers without Portfolio designated by the President, the Director of the Central Intelligence Agency, and several members as commissioned by the President.

ECONOMIC AND SCIENTIFIC COUNCIL

The Economic and Scientific Council is established under the jurisdiction of the President to advise on the formulation of important policies concerning the national economy and the promotion of sciences for the purpose of such development prior to their deliberation by the State Council. The President shall preside over the meetings of the Council. The Council shall be composed of several standing and associate members to be appointed by the President from among those having profound knowledge and experience concerning economics and science.

BOARD OF INSPECTION

The Board of Inspection is established under the President to inspect the closing accounts of revenues and expenditures, the accounts of the State and other organizations as determined by law, and to inspect the administrative functions of the executive agencies and public officials in order to improve and promote operation of State administration.

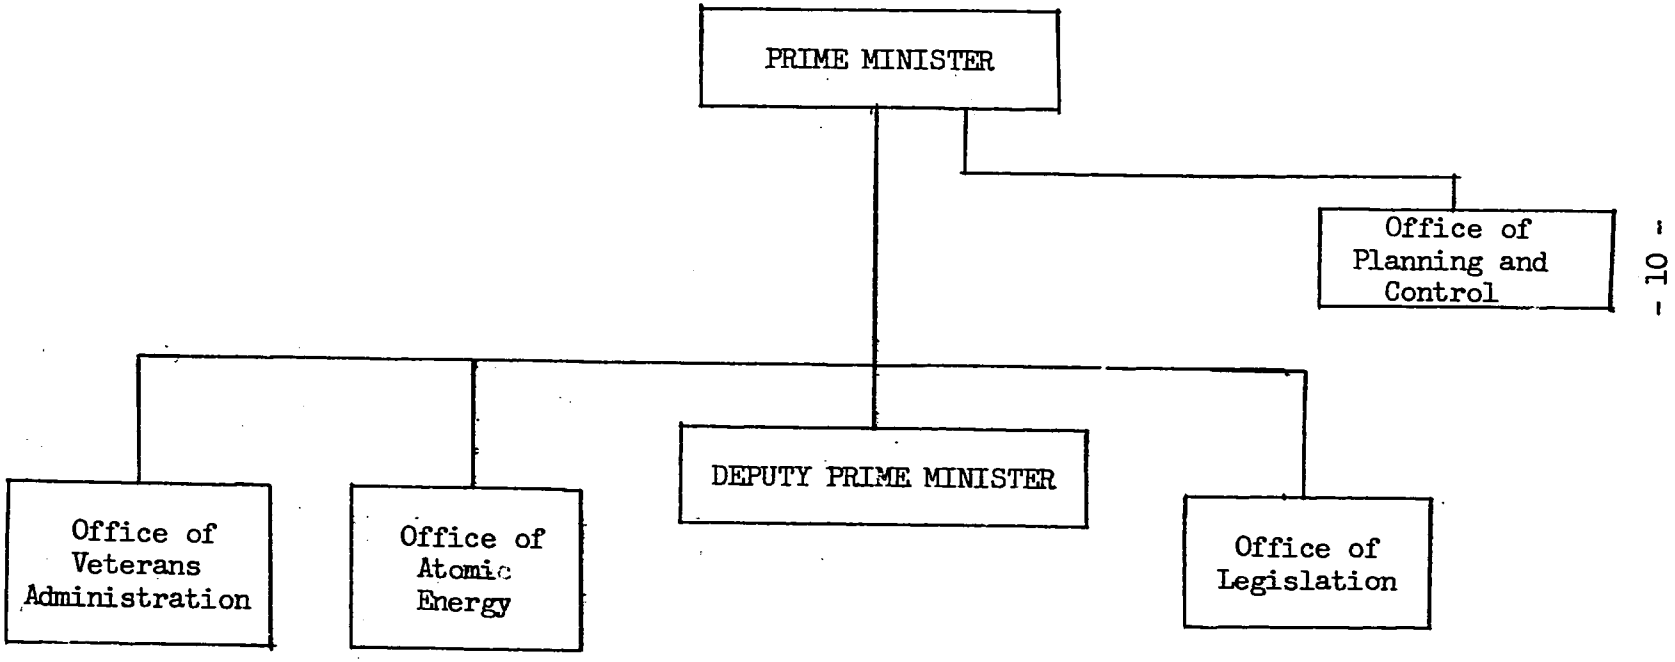
The Board shall be composed of no less than five and no more than eleven members including the Chairman. The Chairman shall be appointed by the President with the approval of the National Assembly with a term of four years, and may be reappointed only for one more consecutive term. The members of the Board shall be appointed by the President, upon the recommendation of the Chairman, for a period of four years. The Board shall inspect the closing accounts of revenues and expenditure each year, and report the results to the President and the National Assembly in the following year.

ADMINISTRATIVE IMPROVEMENT RESEARCH COMMISSION

The Administrative Improvement Research Commission is established under the President in order to conduct studies and research on those matters pertaining to the organization, functions, manpower, management, and operations of the government agencies, local self-governing bodies, and government controlled enterprises, and shall report and recommend to the President both findings and detailed improvement programs.

The Commission shall consists of one Chairman, two Vice-Chairmen, and not more than ten members. The Chairman shall be appointed by the President from those having excellent experience and academic qualifications and one Vice-Chairman shall be appointed by the President from the members of the State Council and one Vice-Chairman from those who have excellent experience and academic qualifications. The Commission shall submit final reports not later than November 30, 1966.

THE PRIME MINISTER



PRIME MINISTER

Established by the Constitution of the Republic of Korea, 7/12/1948
Last Amended, 12/26/1962

The Prime Minister is to assist the President and shall be the Vice Chairman of the State Council. The Prime Minister shall be appointed by the President and he may recommend to the President the removal of members of the State Council from office.

DEPUTY PRIME MINISTER

Established by the Government Organizational Law No. 1506, 192/14/1963

The Deputy Prime Minister is to assist the Prime Minister in disposing of work especially assigned by the Prime Minister. The post of the Deputy Prime Minister shall be held concurrently by the Minister of the Economic Planning Board.

OFFICE OF PLANNING AND CONTROL

The Office of Planning and Control is established under the jurisdiction of the Prime Minister for the purpose of assisting the Prime Minister with regard to overall coordination of planning, implementation of progress review and analysis, and evaluation of programs of the central administrative agencies and other agencies under the supervision of the Prime Minister. The Office shall have a Planning Coordinator, a Reviewer and Evaluator, and a Programming Coordinator.

LFFICE OF VETERANS ADMINISTRATION

The Office of Veterans Administration is established under the Prime Minister in order to take charge of veterans; matters pertaining to relief settlement loans, appointment and employment of persons eligible for relief, provision of relief compensation, military personnel insurance, and other benefits as may be prescribed by law, for wounded veterans and policemen, bereaved families of fallen soldiers and policemen, fallen patriots and their bereaved families, wounded students of the April 19 uprise, bereaved families of fallen April 19 students, and North Korean defectors.

The Office shall have a Planning and Management Office, a General Affairs Section, a Management Bureau, a Relief Bureau, and an Accounting Bureau. Also the Office shall have a Consolidated Rehabilitation Center, a Veterans Hospital, a Reemployment Center, and five Regional Veterans Administration Offices.

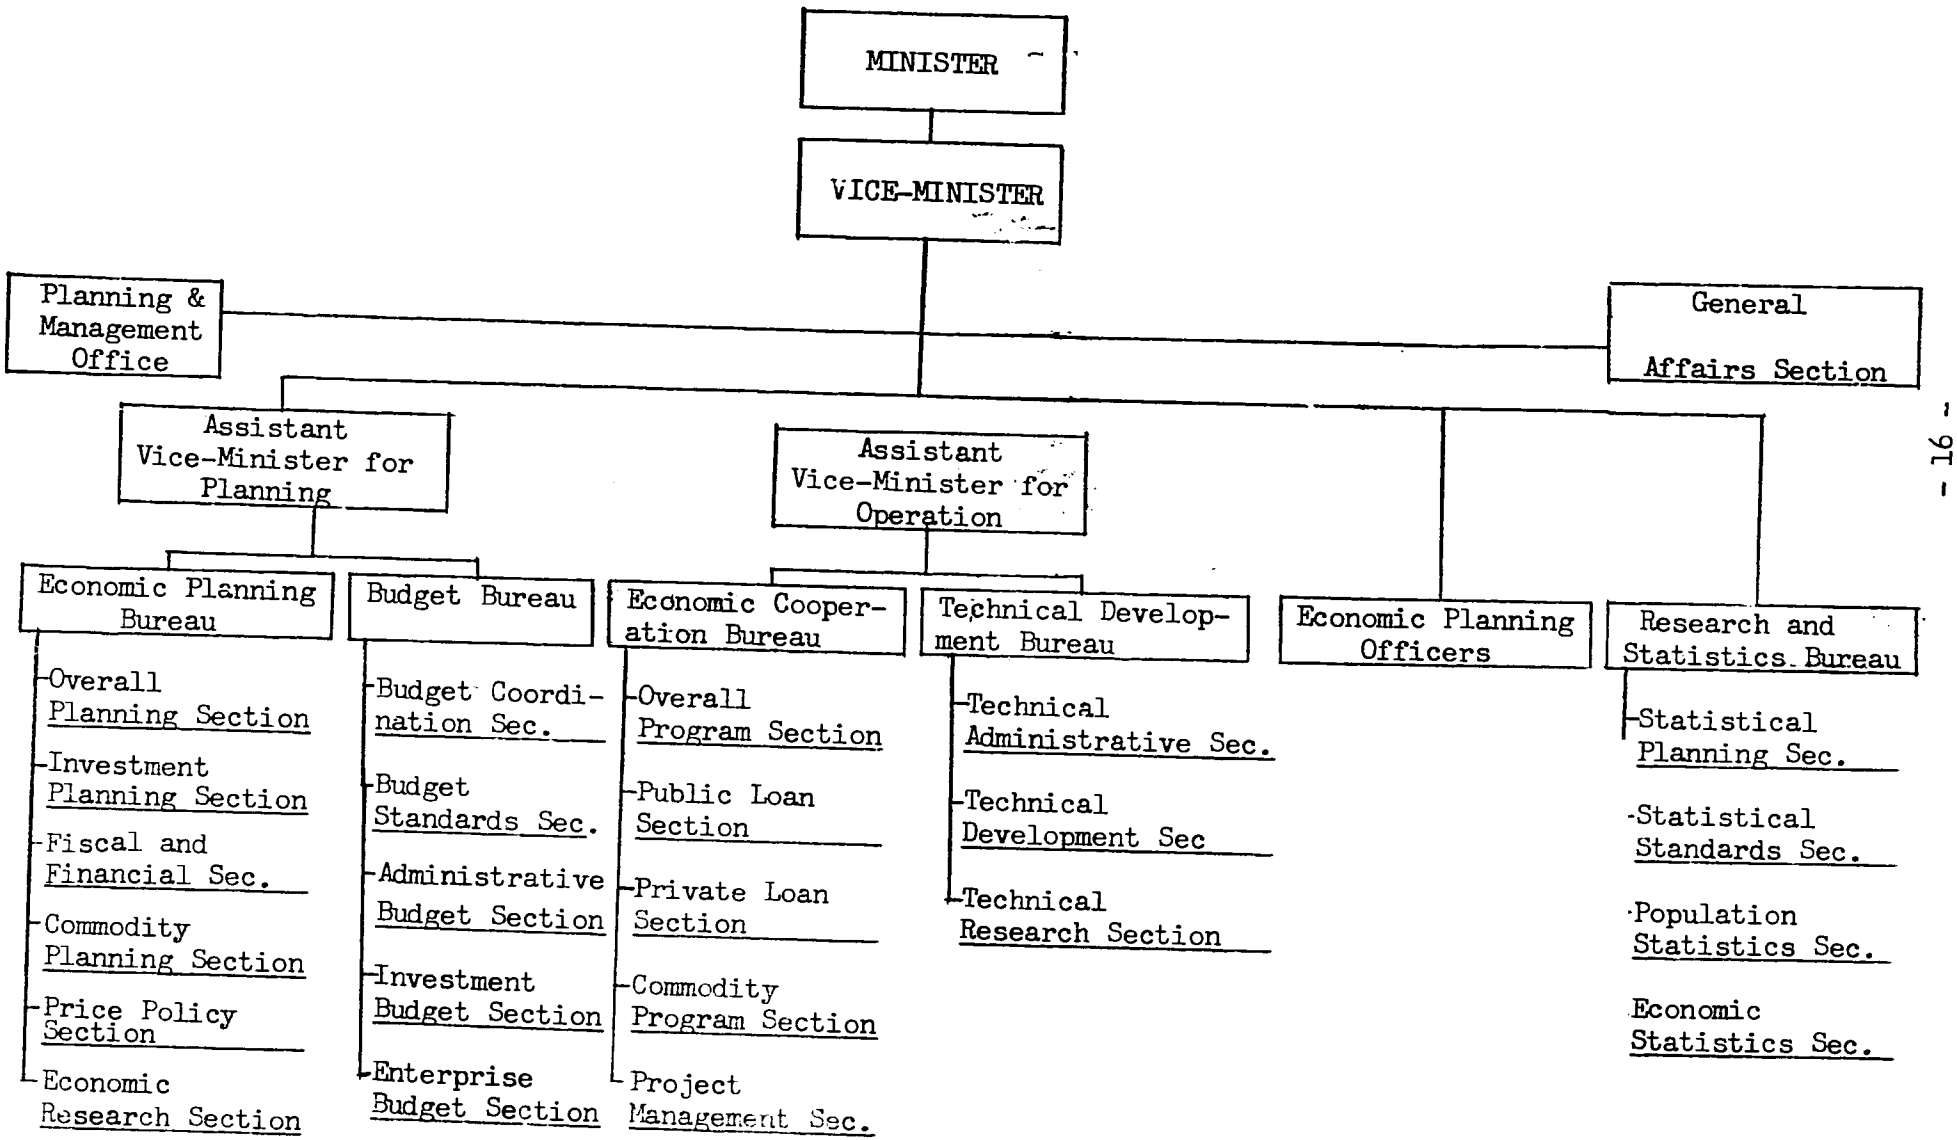
OFFICE OF ATOMIC ENERGY

The Office of Atomic Energy is established under the jurisdiction of the Prime Minister. The Office is responsible for matters pertaining to academic research on atomic energy, the conduct of necessary experiments, the development of industrial uses of atomic energy, and the training of technicians in agencies concerned with atomic energy. The Office shall have a Planning and Management Officer, an Atomic Energy Commission, a Secretariat, an Atomic Energy Research Institute, and a Radiology Research Institute.

OFFICE OF LEGISLATION

The Office of Legislation is established under the Prime Minister in order to take charge of matters pertaining to drafting of orders and legislative bills requested by the Prime Minister; review and modification of drafts of laws, treaties, presidential decrees, prime minister's ordinances, state council ordinances, regulations, and other ministerial ordinances; establishment and implementation of survey and study plans relating to domestic and foreign laws and their management; consolidation and compilation of legislation data and legal code; and collection, custody, reading, and lending of books necessary for legislative data. The Office shall have a Planning & Management Officer, a General Affairs Section, a First Bureau and a Second Bureau.

ECONOMIC PLANNING BOARD



ECONOMIC PLANNING BOARD

The Economic Planning Board is responsible for matters pertaining to the establishment of overall development plans and development of the national economy, formulation and execution of the budget, overall coordination of plans for mobilization of resources available within and outside the country, investments and technical development, and those matters concerning economic cooperation with international organizations. The Board shall have a Planning and Management Office, a General Affairs Section, an Economic Planning Bureau, a Budget Bureau, an Economic Cooperation Bureau, a Technical Development Bureau, Economic Planning officers, and a Research and Statistics Bureau.

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and plans; establishment of guidelines for consolidating and coordinating basic operational plans; coordination in the formulation and execution of the budget; review and analysis of the project status and results; management of the organization and staff ceiling; position classification and salary systems; supervision of the establishment and enforcement of management improvement programs and management surveys; maintaining an analysis of administrative statistics; review of draft laws and regulations; review of appeals; compilation and publication of laws and regulations; review and analysis of major economic project status; and operation of the Economic Minister's Meeting.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to the security and custody of the official seals, the receipt, dispatch, control and custody of official documents and other records management; accounting, settlement of accounts and execution of the budget; office supplies and furniture; management of national properties. Also matters pertaining to appointment, service, training, pension, and other personnel affairs of public officials assigned to the Board, and other matters not specifically assigned to the other sections.

ECONOMIC PLANNING BUREAU

The Economic Planning Bureau is established under the Assistant Vice-Minister for Planning and shall have an Overall Planning Section, an Investment Planning Section, a Fiscal and Financial Section, a Commodity Planning Section, a Price Policy Section, and an Economic Research Section.

OVERALL PLANNING SECTION

The Overall Planning Section is responsible for matters pertaining to the consolidation, coordination, and direction of economic programs, policies, and annual programs; long-range programs of the national economy; study of the development patterns of the national economy; structural analysis of the national economy; remodeling of industrial structures; population and employment problems; analysis of national income; liaison affairs with economic advisory groups; compilation and publication of various program documents; and other matters not specifically assigned to the other sections in the bureau.

INVESTMENT PLANNING SECTION

The Investment Planning Section is responsible for matters pertaining to the overall coordination of economic development projects; establishment of investment standard; and investment planning for agriculture, forestry, fisheries, key industry, electric power, transportation, communications, and the medium and small industry sectors.

FISCAL AND FINANCIAL SECTION

The Fiscal and Financial Section is responsible for matters pertaining to the establishment and coordination of overall funding programs; consolidation and coordination of long-range fiscal and financing programs; coordination of fiscal and financial policies; mobilization of local currency funds; consolidation and coordination of basic currency policies; and surveys and study of fiscal and financial systems.

COMMODITY PLANNING SECTION

The Commodity Planning Section is responsible for matters pertaining to the consolidation and coordination of comprehensive commodity operational programs for available domestic and foreign resources; long-range commodity supplies; coordination of international payments programs; national wealth and resource surveys; and consolidation and coordination of supply programs for foreign investment requirements.

PRICE POLICY SECTION

The Price Policy Section is responsible for matters pertaining to the drafting of comprehensive price policies; coordination and analysis of prices; social welfare; and improvement of national consumer living.

ECONOMIC RESEARCH SECTION

The Economic Research Section is responsible for matters pertaining to the research and analysis of trends of domestic and foreign economies; cooperation with foreign economic research agencies; compilation and publication of domestic and foreign economic data; guidance and improvement of domestic economic research organizations; overall evaluation and arrangement of research on economic problems; public information of development programs; and library management.

BUDGET BUREAU

The Budget Bureau is established under the Assistant Vice-Minister for Planning and shall have a Overall Section, a Budget Standards Section, an Administrative Budget Section, an Investment Budget Section, and an Enterprice Budget Section.

OVERALL BUDGET SECTION

The Overall Budget Section is responsible for matters pertaining to the drafting and coordination of plans for financial policies; overall planning and preparation of data for formulation and execution of the budget; coordination of national and local finance; management of contingency funds; budget formulation and execution of the Economic Planning Board, Ministry of Finance, and Illicit Fortune Disposal Special Account; and other matters not specifically assigned to the other sections in the bureau.

BUDGET STANDARDS SECTION

The Budget Standards Section is responsible for matters pertaining to the establishment of necessary standards for budget formulation; surveys and decision on unit price; price surveys on financial resources for public officials salaries; budget items; the budget accounting system; and government financing laws and regulations.

ADMINISTRATIVE BUDGET SECTION

The Administrative Budget Section is responsible for matters pertaining to the budget formulation and execution of the Office of President, National Assembly, Central Intelligence Agency, Board of Inspection, Supreme Court, Office of Prime Minister, the Ministries of Home Affairs, Foreign Affairs, Justice, National Defense, Education, Health and Social Affairs, Public Information, and Government Administration, Office of Atomic Energy, Office of Legislation, Central Election Management Committee, Office of Labor Affairs, Public Officials Pension Special Account, Veterans Administration Special Account, Penal Administration Special Account, Former Royal Household Special Account, Television Broadcasting Special Account, and the Military Personnel Pension Special Account.

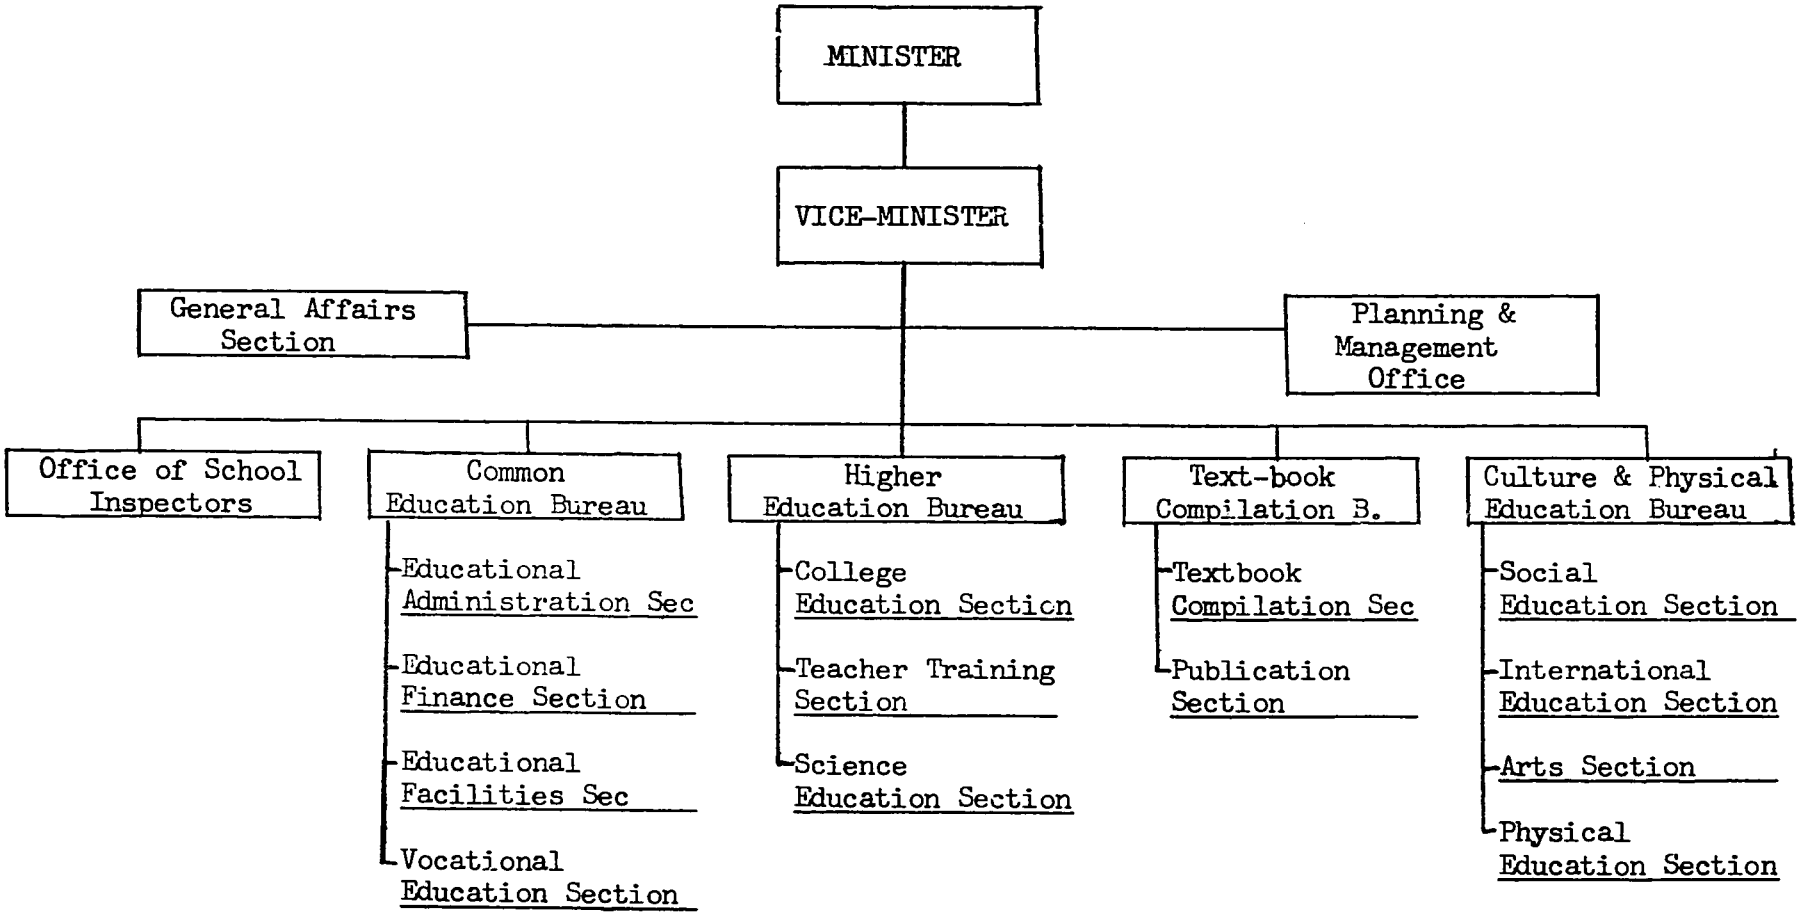
OFFICES OF MILITARY SERVICE

The Offices of Military Service are established under the supervision of the Minister of National Defense. These Offices are responsible for matters pertaining to conscription, recruiting, students' military training, recall active service, and management of military records. The Offices are located in Seoul Special City, Pusan City and other provinces.

NATIONAL DEFENSE COLLEGE

The National Defense College is established under the jurisdiction of the Minister of National Defense for the purpose of teaching sciences related to the national security, and the analyses, study and development of the national security issues to students selected from the Armed Forces, government agencies, and the government-controlled enterprises.

MINISTRY OF EDUCATION



MINISTRY OF EDUCATION

The Ministry of Education is responsible for matters pertaining to education, science, physical education, publications, copyrights, and other activities in the fields of culture and arts. The Ministry shall have a Planning and Management Office, an Office of School Inspectors, a General Affairs Section, a Common Education Bureau, a Higher Education Bureau, a Text Book Compilation Bureau, and a Culture and Physical Education Bureau. Also, the Ministry shall have a Bureau of Cultural Assets Maintenance, a National Library, a National Museum, a National Science Institute, a National History Compilation Committee, a National Science Academy of Arts, a National Academy of Science, and a Central Audio-Visual Education Institute.

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and programs; establishment, consolidation, and coordination of guidelines for basic operational programs; coordination of the formulation and execution of the budget; review and analysis of program and results of projects; management of organization and staff ceiling and position classification and salary systems; supervision of the establishment and enforcement of management improvement programs and management surveys; maintenance and analysis of administrative statistics; review of draft laws, regulations, appeals; and compilation and publication of laws and regulations.

OFFICE OF SCHOOL INSPECTORS

The Office of School Inspectors is responsible for matters pertaining to the planning, research, study, guidance, and supervision of education and guidance of educational public officials and students.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to the security, custody of official seals, the receipt, dispatch, control, and custody of official documents and other record management; accounting, settlement of accounts, and execution of the budget; office supplies and

furniture; management of national properties; and accounting inspections; matters pertaining to appointment, service, training, pension and other personnel management affairs of public officials assigned to the Ministry, and other matters not specifically assigned to the other sections.

COMMON EDUCATION BUREAU

The Common Education Bureau shall have an Educational Administration Section, an Educational Finance Section, an Educational Facilities Section, and a Vocational Education Section.

EDUCATIONAL ADMINISTRATION SECTION

The Educational Administration Section is responsible for matters pertaining to the establishment and abolishment of kindergartens, primary schools, middle schools, high schools, special schools, and various schools corresponding thereto; establishment, abolishment, and supervision of school juridical persons; guidance and supervision of local educational administration and schools; organization and staff ceiling of local educational administrative agencies and educational institutions; and other matters not specifically assigned to other sections in the Bureau.

EDUCATIONAL FINANCE SECTION

The Educational Finance Section is responsible for matters pertaining to the local educational finance; execution and settlement of the Educational Expenses Special Account; loan of the Educational Expenses Special Account; property management; financial supervision of the private schools and school juridical persons; and school fees, student burden expenses and scholarships.

EDUCATIONAL FACILITIES SECTION

The Educational Facilities Section is responsible for matters pertaining to the establishment of standards for facilities and installations of kindergartens, primary schools, middle schools, high schools, special schools (excluding vocational schools); demand and supply of facilities and materials for schools; school construction; and survey and supervision of facilities and installations of above mentioned schools.

VOCATIONAL EDUCATION SECTION

The Vocational Education Section is responsible for matters pertaining to the establishment and abolishment of various vocational schools and vocational high schools; establishment, abolishment and supervision of school

juridical persons; establishment of standards for facilities and installations of vocational middle schools, high schools, technical middle schools, technical high schools and survey and inspection of above facilities and installations; guidance and supervision of above mentioned schools, technical training institutes in vocational high schools and technical high schools; scholarship loans; scientific exhibitions, and certifying proficiency in use of abacus.

HIGHER EDUCATION BUREAU

The Higher Education Bureau shall have a College Education Section, a Teacher Training Section, and a Science Education Section.

COLLEGE EDUCATION SECTION

The College Education Section is responsible for matters pertaining to the establishment, abolishment and supervision of various colleges (excluding teachers' colleges) and school juridical persons; organization and staff ceiling of the schools; survey and supervision of facilities and installations and standards for facilities and installations of the schools; educational guidance of the schools; military affairs of studends; school fees, student burden expenses and scholarships; and other matters not specifically assigned to other sections in the Bureau.

TEACHER TRAINING SECTION

The Teacher Training Section is responsible for matters pertaining to the establishment, abolishment and supervision of the educational departments at teachers colleges and vocational colleges; organization and staff ceiling of above mentioned colleges; educational guidance of the schools and departments; demand and supply programs of teachers at schools (excluding colleges); qualification and in-service training of teachers; school fees, students burden expenses and scholarships; and guidance and supervision of teachers associations.

SCIENCE EDUCATION SECTION

The Science Education Section is responsible for matters pertaining to the establishment, abolishment and supervision of vocational junior colleges and vocational high schools and school juridical persons; organization and staff ceiling of above mentioned schools and colleges; survey and supervision of facilities and installations of schools and standards for facilities and installations; educational guidance and promotion of vocational colleges; qualification and training of technicians; and school fees, students expenses, and scholarships.

TEXT BOOK COMPILATION BUREAU

The Text Book Compilation Bureau shall have a Text Book Compilation Section and a Publication Section.

TEXTBOOK COMPILATION SECTION

The Text Book Compilation Section is responsible for matters pertaining to the writing and compilation of curricula and text books; authorization and approval of school books; research and study of Korean language and educational materials; compilation of animal and botanical books and translated books; approval of audio-visual teaching materials and instruments; guidance and supervision of audio-visual educational research organizations; and other matters not specifically assigned to other sections in the Bureau.

PUBLICATION SECTION

The Publication Section is responsible for matters pertaining to the publication and supply of text books; copyrights; and publication of animal and botanical books, translated books and other ordinary books.

CULTURE AND PHYSICAL EDUCATION BUREAU

The Culture and Physical Education Bureau shall have a Social Education Section, an International Education Section, an Arts Section, and a Physical Education Section.

SOCIAL EDUCATION SECTION

The Social Education Section is responsible for matters pertaining to establishment and abolishment of civic schools, higher civic schools and school juridical persons; study and guidance of adult education and national ideals; guidance and education of youths; guidance and supervision of facilities for social educational organizations; guidance and supervision of scholarship organizations, religious organizations, buddhist organizations and other culture organizations; guidance and supervision of various kinds of private training centers; and other matters not specifically assigned to other sections in the Bureau.

INTERNATIONAL EDUCATION SECTION

The International Education Section is responsible for matters pertaining to the United Nations educational, scientific and cultural organizations; students study abroad; education of Korean residents overseas; and international culture exchange (education, academic arts, and athle ics).

ARTS SECTION

The Arts Section is responsible for matters pertaining to literature, fine arts and industrial arts; guidance and supervision of organizations concerned with literature, fine arts and industrial arts; and promotion of other arts (excluding theatrical arts).

PHYSICAL EDUCATION SECTION

The Physical Education Section is responsible for matters pertaining to students school health and physical education; national physical education; athletic games both inside and outside of the country; athletic facilities; guidance and supervision of athletic organizations; and student military training.

BUREAU OF CULTURAL ASSETS MAINTENANCE

The Bureau of Cultural Assets Maintenance is established under the supervision of the Minister of Education for the purpose of managing and maintaining the cultural assets, including the former royal properties. The Bureau shall have a General Affairs Section, a Cultural Assets Section, and a Management Section. Also, the Bureau shall have a Changkyungwon Palace Office, a Changduk-Goong Palace Office, a Duksoo-Goong Palace Office, a Kyungpuk-Goong Palace Office, and a Chongmyo Palace Office.

NATIONAL LIBRARY

The National Library is established under the jurisdiction of the Minister of Education. The National Library is responsible for matters pertaining to collecting and preserving books and other recorded materials for reading by the general public, and for conducting research. The Library shall have a General Affairs Section, a Librarian Section, and a Reading Service Section.

NATIONAL MUSEUM

The National Museum is established under the jurisdiction of the Minister of Education for the purpose of collecting, custody, and exhibiting historical, cultural, and artistic treasures; and conducting research and study on manners and customs of the people, anthropology areas, and other reference materials. The Museum shall have a General Affairs Section, an Archaeology Research Section, and a Fine Arts Section. Also, the Museum shall have a Kyungju Branch Museum, a Buyu Branch Museum and a Kongju Branch Museum.

NATIONAL SCIENCE INSTITUTE

The National Science Institute is established under the supervision of the Minister of Education for the purpose of conducting research and study of science and promoting and disseminating scientific knowledge. The Institute shall have a General Affairs Section, a Propagation Section, and a Research Department.

NATIONAL HISTORY COMPILATION COMMITTEE

The National History Compilation Committee is established under the jurisdiction of the Minister of Education for the purpose of the compilation of Korean history and the collection of historical materials. The Committee shall have a Secretariat. The members

of the Committee shall be appointed by the Minister of Education.

NATIONAL ACADEMY OF ARTS

The National Academy of Arts is established according to the Cultural Preservation Law for the purpose of encouraging the development of the arts and for promoting the well-being of artists. The National Academy of Arts shall have a Secretariat.

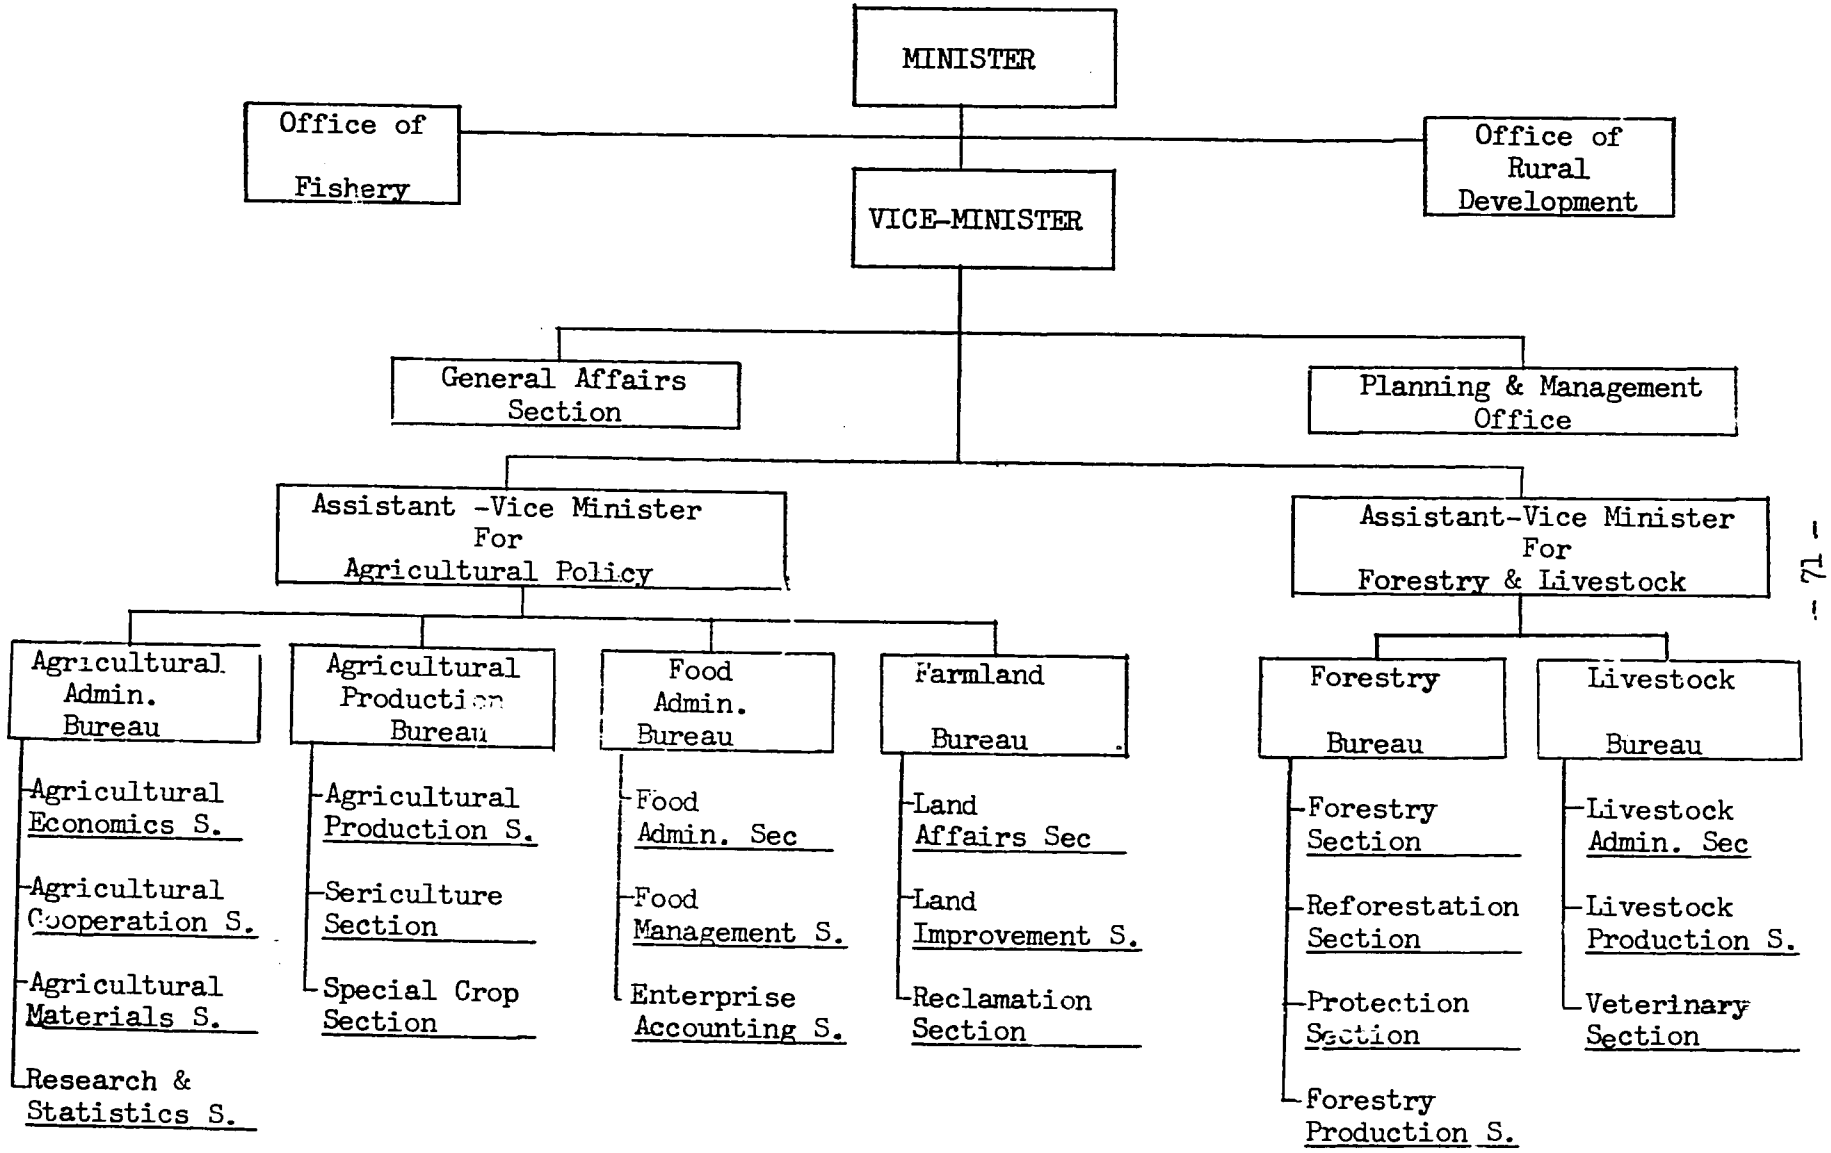
NATIONAL ACADEMY OF SCIENCE

The National Academy of Science is established according to the Cultural Preservation Law for the purpose of guaranteeing the freedom of learning the arts, and for promoting the status of scientists and artists so that they may create and contribute to the development of Korean culture. The National Academy of Science shall have a Secretariat.

CENTRAL AUDIO-VISUAL EDUCATION INSTITUTE

The Central Audio-Visual Education Institute is established under the jurisdiction of the Minister of Education for the purpose of study and promotion of audio-visual education and preparation of audio-visual education materials. The Institute shall have an Administration Section, a Research and Popularization Section, and a School Broadcasting Section.

MINISTRY OF AGRICULTURE & FORESTRY



MINISTRY OF AGRICULTURE AND FORESTRY

The Ministry of Agriculture and Forestry is responsible for matters pertaining to agricultural administration, agricultural production, grain administration, farmland, irrigation, reclamation of waste land, reclamation of tidal land (only for the purpose of agriculture), forestry, sericulture, livestock breeding, fish industry, fishing boats, fishing ports and the development of rural communities. The Ministry shall have a Planning and Management Office, a General Affairs Section, an Agricultural Administration Bureau, an Agricultural Production Bureau, a Food Administration Bureau, a Farmland Bureau, a Forestry Bureau, and a Livestock Bureau. Also the Ministry shall have a National Agricultural Products Inspection Center, a National Raw Silk Inspection Center, a National Livestock Quarantine Station, a Central Fisheries Inspection Center, a National Marine Products Promotion Institute, National Forestry Stations, an Office of Rural Development, and an Office of Fishery.

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and plans; establishment of guidelines for consolidating and coordinating basic operational plans; coordination in the formulation and execution of the budget; review and analysis of progress of projects and results; management of the organization and staff ceiling; position classification and salary systems; supervision of the establishment and enforcement of management improvement programs and management surveys; maintaining an analysis of administrative statistics; work inspection; review of drafts of laws, regulations, and appeals; and the compilation and publication of laws and regulations.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to security; custody of official seals; the receipt, dispatch, control and custody of official documents and other records management; accounting, settlement of accounts, and execution of the budget; office supplies and furniture; management of national properties; and accounting inspections; matters pertaining to appointment, service, training, pension and other personnel management affairs of public officials assigned to the Ministry, and other matters not specifically assigned to the other sections.

AGRICULTURAL ADMINISTRATION BUREAU

The Agricultural Administration Bureau is established under the Assistant Vice-Minister for Agricultural Policy and shall have an Agricultural Economics Section, an Agricultural Cooperation Section, an Agricultural Materials Section and a Research & Statistics Section.

AGRICULTURAL ECONOMY SECTION

The Agricultural Economics Section is responsible for matters pertaining to integrated demand and supply plans for agricultural products; maintenance of prices of farm products; improvement of the circulation of agricultural products and development of markets; improvement of agricultural structure, agricultural management and agricultural survey; integrated plan concerning the import and export of agricultural products; inducement and encouragement of rural industry and subsidiary rural occupations; receiving of foreign economic aid; communication and cooperation with the U.N. Food and Agriculture Organization; and other matters not specifically assigned to the other Sections in the Bureau.

AGRICULTURAL COOPERATION SECTION

The Agricultural Cooperation Section is responsible for matters pertaining to the establishment of agricultural cooperatives; appointment, dismissal

and approval of the heads of agricultural cooperatives; screening of staff employees of agricultural cooperatives; guidance and supervision of the handling of agricultural cooperatives; guidance and supervision of agricultural warehouses; farming and fishing funds, forestry funds and guidance of credit activities; settlement of high-interest loans in farming and fishing villages; and funds for the development of farming and fishing villages and guidance loans.

AGRICULTURAL MATERIALS SECTION

The Agricultural Materials Section is responsible for matters pertaining to plans for the supply and demand of fertilizer, agricultural pesticides and agricultural machinery and tools, and their popularization; adjustment of the prices of fertilizer, agricultural pesticides, agricultural machinery and tools; popularization of lime stone for agricultural use; handling of fertilizer and fertilizer funds; control of illegal fertilizer transaction; and licensing and inspection of the manufacture of agricultural pesticides.

RESEARCH & STATISTICS SECTION

The Research & Statistics Section is responsible for matters pertaining to preparation of basic agricultural and forestry statistics; publication of statistical yearbooks and seasonal reports; agricultural census and improvement of agricultural statistics; investigation of the production costs of agricultural products; investigation of agricultural production; and investigation of the farm family economy.

AGRICULTURAL PRODUCTION BUREAU

The Agricultural Production Bureau is established under the Assistant Vice-Minister for Agricultural Policy and shall have an Agricultural Production Section, a Sericulture Section and a Special Crop Section.

AGRICULTURAL PRODUCTION SECTION

The Agricultural Production Section is responsible for matters pertaining to integrated plan for the increased production of agricultural products; production plans for rice, barley, other grains, beans, and potatoes; seed innovation project; adjustment of the supply and demand, prices and purchases of agricultural products for use as industrial raw materials (potatoes, corns and starch); increased production of composts and cultivation of tillable land; farm house roof improvement project; crop disaster prevention measures; ascertainment of the progress of projects relative to agricultural production and post-management; and other matters not specifically assigned to the other Sections in the Bureau.

SERICULTURE SECTION

The Sericulture Section is responsible for matters pertaining to plans for the production of cocoons, silk-worm eggs, mulberry seedlings and raw silk,; formation and management of mulberry fields and adjustment of the supply of and demand for silk yarn; investigation of the production costs of silk yarn and the determination of prices; guidance and supervision over silk-reel factories and spun silk factories; production of silk waste and spun silk; adjustment of the supply of and demand for raw material cocoons and the export of raw silk; guidance and supervision of sericulture organizations; and coordination of raw silk inspection work.

SPECIAL CROP SECTION

The Special Crop Section is responsible for matters pertaining to plans for the production of fibers, fats and oils, medical and other special crops and horicultural crops; encouragement of production and their supply and demand; special crop export and import and prices; collection, processing and disposal of their products; production of seeds and seedlings and adjustment of their supply and demand; production and supply of vegetables for offshore procurement; quarantine of international and domestic plants; and prevention and elimination of damages by insects.

FOOD ADMINISTRATION BUREAU

The Food Administration Bureau is established under the Assistant Vice-Minister for Agricultural Policy and shall have a Food Administration Section, a Food Management Section and an Enterprise Accounting Section.

FOOD ADMINISTRATION SECTION

The Food Administration Section is responsible for matters pertaining to the establishment of grain policies; establishment of the grain supply and demand plan; establishment of grain policies; establishment of the grain supply and demand plan; establishment of the grain price stabilization plan; fixing of grain handling rates; purchase of grains and fixing of sale prices; investigation into the amount of grain consumption; investigation of grain price trends; export and import of grains; guidance and supervision of government grain handling agents and subordinate organizations; improvement of the circulation of grain markets; and other matters not specifically assigned to the other sections in the Bureau.

FOOD MANAGEMENT SECTION

The Food Management Section is responsible for matters pertaining to the purchase, rationing and marketing of grains; investigation into the condition of changes in stock of grains and grain by-products; disposal of

degenerated grains, preservation and management of grains; transportation of imported grains and coordination for the agricultural product inspection work; processing of grains and supervision of grain processing factories; and grain packing materials.

ENTERPRISE ACCOUNTING SECTION

The Enterprise Accounting Section is responsible for matters pertaining to execution of the budget for the grain management special account, settlement of accounts, allocation of funds, compilation of slips and cost accounting; disbursement within the grain management special account, purchase contracts, management of supplies and goods; and accounting audit of the grain management special account and examination into accounting systems and slips.

FARMLAND BUREAU

The Farmland Bureau is established under the Assistant Vice-Minister for Agricultural Policy and shall have a Land Affairs Section, a Land Improvement Section and a Reclamation Section.

LAND AFFAIRS SECTION

The Land Affairs Section is responsible for matters pertaining to plans for land improvement projects and farmland reform projects; planning, investigation and management concerning farmland systems; compensation and redemption of farmland reform projects and arrangement of land registry; arrangement and coordination of farmland reform projects; issuance and management of land improvement project bonds; establishment of land improvement cooperatives; guidance and supervision of organizations connected with land improvement; management of land improvement and farmland reform projects; and other matters not specifically assigned to the other sections in the Bureau

LAND IMPROVEMENT SECTION

The Land Improvement Section is responsible for matters pertaining to promotion of land improvement projects; investigation, survey and design of land improvement projects and irrigation systems; technical guidance, supervision, examination and inspection of land improvement projects; maintenance and management of irrigation facilities and utilization of underground water; and the allocation and management of machinery and supplies to be used for land improvement projects.

RECLAMATION SECTION

The Reclamation Section is responsible for matters pertaining to promotion and implementation of projects for the reclamation of waste land and tidal land; permission of special waste land reclamation projects; authorization for the use of publicly-owned waters for the purpose of farming; guidance, supervision, examination and inspection of projects for the reclamation of waste and tidal land; investigation, survey and planning of projects for the reclamation of waste land and tidal land; and investigation of projects for the reclamation of waste land and tidal land financed with the U.S. special fund.

FORESTRY BUREAU

The Forestry Bureau is established under the Assistant-Vice Minister for Forestry & Livestock and shall have a Forestry Section, a Reforestation Section, a Protection Section, and a Forestry Production Section.

FORESTRY SECTION

The Forestry Section is responsible for matters pertaining to planning and implementation of policies concerning forests and forestry; forest economy; guidance, supervision and promotion of forestry organizations; loans concerning forestry; promotion, coordination and communication concerning forestry experimentation and research; management and disposal of government-owned forest land; development of overseas forestry; accounting audit, settlement of accounts, supplies and accounting of the Government-Owned forestry Management Special Account; supervision of forestation business; and other matters not specifically assigned to the other Sections in the Bureau.

REFORESTATION SECTION

The Reforestation Section is responsible for matters pertaining to plans for the forestation and promotion of government and private-owned forests; guidance and supervision concerning the reforestation of government and private owned forests; plans for the supply and production of seeds and seedlings for government and private-owned forest; plans and guidance for the implementation of seedling culture; plans for the conservation of government and private-owned forests; and guidance, supervision and promotion concerning the conservation of private-owned forests.

PROTECTION SECTION

The Protection Section is responsible for matters pertaining to prevention of secret and excessive lumbering in government and private-owned forest; control of delivery of illegal forest products; prevention and

extermination of forest pests; supervision of forest rangers; forest security; forest fire insurance; protection and multiplication of wild animals; applied study concerning wild animals; control of hunting; secured forests and protected forest districts; preservation of natural resources; and cultivation and reclamation of forest and pasturing in forests.

FORESTRY PRODUCTION SECTION

The Forestry Production Section is responsible for matters pertaining to actual surveys of government and private-owned forests; basic forestry plans and forest management plans; adjustment of the supply and demand of forestry products; improvement of the production, circulation and consumption of lumber, charcoal and other forestry products; encouragement of the production of forest by-products; import and export of forestry products; improvement of lumbering and forestry product consumption facilities; and forestry roads, measurements for forestation, protection and felling.

LIVESTOCK BUREAU

The Livestock Bureau is established under the Assistant-Vice Minister for Forestry & Livestock and shall have a Livestock Administration Section, a Livestock Production Section, and a Veterinary Section.

LIVESTOCK ADMINISTRATION SECTION

The Livestock Administration Section is responsible for matters pertaining to livestock policy and integrated plans; livestock breeding funds; propagation and guidance of livestock technology; adjustment of the supply and demand of domestic animals and livestock products; processing and disposal of livestock products and standards inspection; economic analysis of livestock breeding and livestock breeding statistics; mutual benefit of livestock and livestock market; guidance and supervision of livestock breeding organizations; post-management of livestock breeding projects; and other matters not falling under the competence of other Sections in the Bureau.

LIVESTOCK PRODUCTION SECTION

The Livestock Production Section is responsible for matters pertaining to encouragement of farming with livestock breeding; the supply and demand of animal feed; production of self-supplied feed; improvement of pasturing and guidance of pasture management; encouragement of livestock fattening; improvement of domestic animals and birds, and encouragement of dairy farming; stock breeding and artificial insemination projects; feed processing and feed inspection.

VETERINARY SECTION

The Veterinary Section is responsible for matters pertaining to national examination, license and registration of veterinaries; guidance and supervision of veterinary officers, veterinary pharmacists, veterinary apprentices, and shoers; prevention and quarantine of livestock diseases, and diagnosis and treatment of domestic animals; physiological medicine inspection, autopsy of dead animals and appraisal of the the nature of livestock diseases; hygiene of domestic animals and birds; sanitary inspection of livestock products; sanitary inspection of milk disposal plants, livestock products processing plants; slaughter houses and tanneries.

NATIONAL MARINE PRODUCTS PROMOTION INSTITUTE

The National Marine Products Promotion Institute is established under the jurisdiction of the Minister of Agriculture and Forestry in order to conduct survey, test and study of marine products promotion, and guidance and training for marine production skills.

NATIONAL FORESTRY STATIONS

The National Forestry Stations are established under the jurisdiction of the Ministry of Agriculture and Forestry for the purpose of controlling and managing national and vested forests.

OFFICE OF RURAL DEVELOPMENT

The Office of Rural Development is established under the Minister of Agriculture and Forestry and is responsible for matters pertaining to experiments and research on rural development, guidance of farmers, and education and training of agriculture and forestry officials.. The Office shall have a Planning and Management Office, a General Affairs Section, a Research Bureau, and a Guidance Bureau. Also the Office shall have a Plant Environment Research Institute, a Corp Experiment Station, Honam and Yungnam Corp Experiment Stations, a Forestry Experiment Station, a Forestry Breeding Research Institute, a Sericulture Experiment Station, a Livestock Experiment Station, a Veterinary Research Institute, an Agricultural Engineering and Utilization Institute, an Alpine Experiment Station, a Cheju Experimental Station, and an Agriculture and Forestry Officials' Training Institute.

NATIONAL AGRICULTURAL PRODUCTS INSPECTION CENTER

The National Agricultural Products Inspection Center is established under the Minister of Agriculture and Forestry, and is responsible for matters pertaining to experimentation, investigation and research necessary for the inspection of agricultural and forestry products, and their manufacture, storage, preparation and inspection.

NATIONAL RAW SILK INSPECTION CENTER

The National Raw Silk Inspection Center is established under the Minister of Agriculture and Forestry for the purpose of the inspect of raw silk.

NATIONAL LIVESTOCK QUARANTINE STATION

The National Livestock Quarantine Station is established under the Jurisdiction of the Minister of Agriculture and Forestry in order to conduct inspection and quarantine of livestock to be imported and exported.

CENTRAL FISHERIES INSPECTION CENTER

The Central Fisheries Inspection Center is established under the jurisdiction of the Minister of Agriculture and Forestry in order to inspect marine products and for the survey, study and guidance of manufacturing and packing, and statistical survey of marine product sales and export.

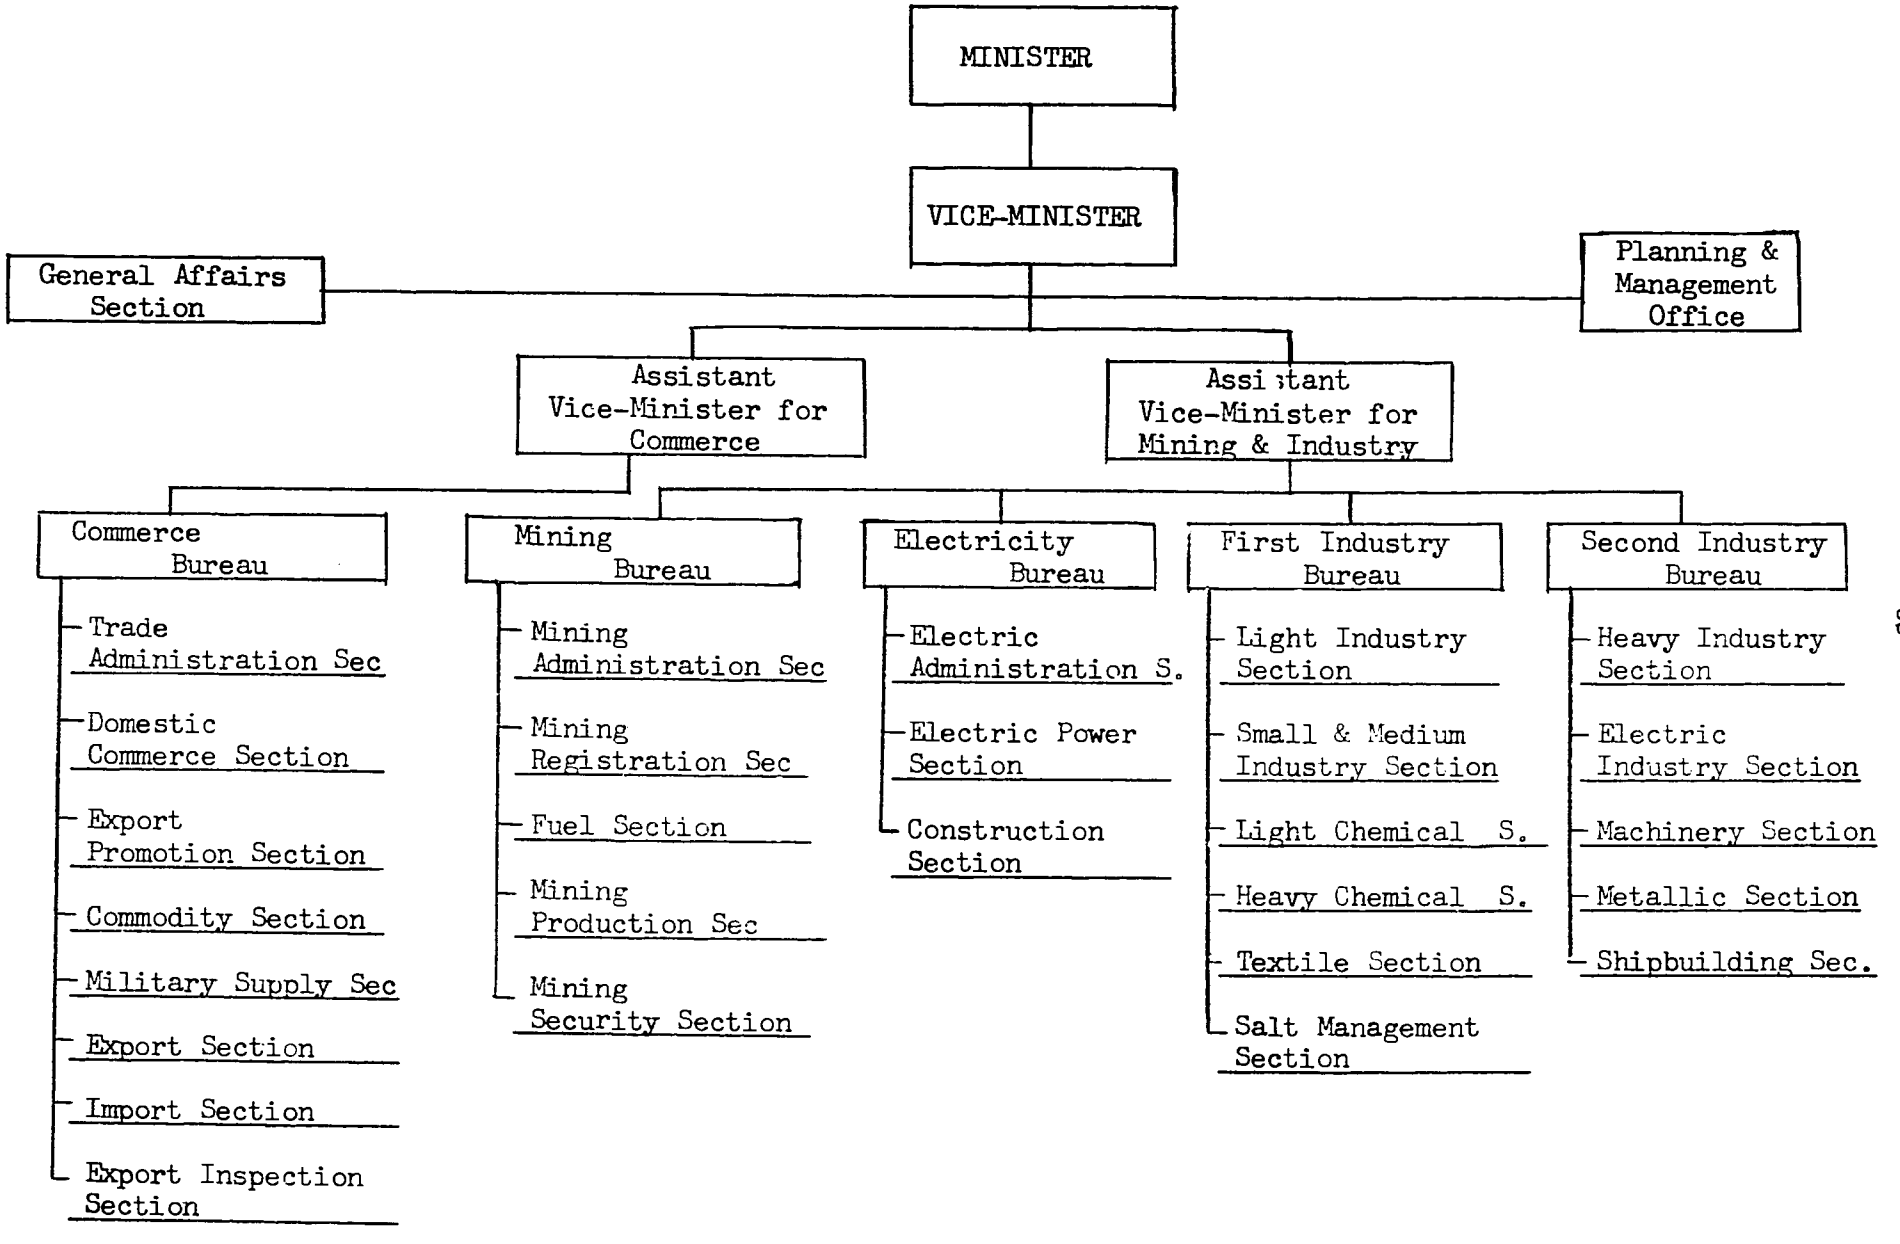
AGRICULTURE AND FORESTRY OFFICIALS' TRAINING INSTITUTE

The Agriculture and Forestry Officials' Training Institute is established under the Director of the Office of Rural Development in order to conduct education and training for the acquisition of knowledge and technology required for the performance of duties by public officials engaged in the agricultural and forestry fields, those who are to be engaged in farming research and rural guidance work, officers and employees of the organizations under the Ministry of Agriculture and Forestry, and voluntary rural leaders.

OFFICE OF FISHERY

The Office of Fishery is established under the Minister of Agriculture and Forestry and is responsible for matters pertaining to planning, administration, marketing, materials, ficility management, loans, guidance, fishing boats, and fishing ports concerning fishery industry. The Office shall have a Planning and Management Office, a General Affairs Section, a Fishery Administration Bureau, a Marine Products Bureau, and a Facilities Bureau.

MINISTRY OF COMMERCE AND INDUSTRY



MINISTRY OF COMMERCE AND INDUSTRY

The Ministry of Commerce and Industry is responsible for matters pertaining to commerce, foreign trade, mining, fuels (excluding firewood), electric power, industry, weights and measures, patent and standards of mineral and industrial products. The Ministry shall have a Planning and Management Office, a General Affairs Section, a Commerce Bureau, a Mining Bureau, an Electricity Bureau, a First Industry Bureau, and a Second Industry Bureau. Also the Ministry shall have a Bureau of Patent, a Bureau of Standards, a Bureau of Central Weight and Measures, an Office of Geological Survey of Korea, and a National Industrial Research Institute.

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and palns; establishment of guidances for consolidating and coordinating basic operational plans; coordination in the formulation and execution of the budget; review and analysis of progress of projects and results; management of the organization and staff ceiling and position classification and salary systems; supervision of the establishment and enforcement of management improvement programs and management surveys; maintaining and analysis of administrative statistics; work inspection; review of drafts of laws, regulations, and appeals; and the compilation and publication of laws and regulations.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to security; custody of official seals; the receipt, dispatch, control and custody of official documents and other records management; accounting, settlement of accounts, and execution of the budget; office supplies and furniture; management of national properties; and accounting inspections; matters pertaining to appointment, service, training, pension and other personnel management affairs of public officials assigned to the ministry; and other matters not specifically assigned to the other sections.

COMMERCE BUREAU

The Commerce Bureau is established under the Assistant Vice-Minister for Commerce and shall have a Trade Administration Section, a Domestic Commerce Section, an Export Promotion Section, a Commodity Section, a Military Supply Section, an Export Section, and an Import Section, and an Export Inspection Section.

TRADE ADMINISTRATION SECTION

The Trade Administration Section is responsible for matters pertaining to policies and plans relating to foreign trade; coordination and drafts of laws and regulations relating to foreign trade; and other matters not specifically assigned to the other sections in the Bureau.

DOMESTIC COMMERCE SECTION

The Domestic Commerce Section is responsible for matters pertaining to policies and plans relating to domestic trade; markets, department stores, warehousing and commercial transactions; supervision and guidance

of chambers of commerce, merchandise exchanges and other commercial organizations; promotion of commercial business ethics; establishment of definite order of domestic commodity circulation; and other matters concerning domestic trade.

EXPORT PROMOTION SECTION

The Export Promotion Section is responsible for matters pertaining to improvement and guidance of export promotion plans and export industries; issuance of export loans and export promotion subsidies; guidance and supervision of exporters' associations; operation of the Export Promotion Committee; data survey for export promotion; exploration of overseas markets; participation in international trade fairs; dispatch and invitation of business missions; and supervision of the Korea Trade Promotion Corporation.

COMMODITY SECTION

The Commodity Section is responsible for matters pertaining to allocation and implementation of government-owned foreign exchanges and foreign aid funds for trade and sale of the US Army excess properties.

MILITARY SUPPLY SECTION

The Military Supply Section is responsible for matters pertaining to military constructions and services; military commodities supplies; coordination of military supplies; payments for military supply subsidies; registration of military suppliers; supervisions of military suppliers' associations; and other related matters to military supplies.

EXPORT SECTION

The Export Section is responsible for matters pertaining to permission and management of export; determination, public announcement, and statistics of price standards for export items; special trade (including bonded processing trade); and other matters related to exportation.

IMPORT SECTION

The Import Section is responsible for matters pertaining to permission and management of import; determination, public announcement, and statistics of price standards for import items; imports without foreign exchange requirements; and other matters related to importation.

EXPORT INSPECTION SECTION

The Export Inspection Section is responsible for matters pertaining to planning the export inspection system; implemention of the Export Inspection Law; guidance for private export inspection agencies; and matters relating to the improvement of overseas credit as to exports.

MINING BUREAU

The Mining Bureau is established under the Assistant Vice-Minister for Mining and Industry and shall have a Mining Administration Section, a Mining Registration Section, a Fuel Section, a Mining Production Section, and a Mining Security Section.

MINING ADMINISTRATION SECTION

The Mining Administration Section is responsible for matters pertaining to policies and plans relating to mining; management and supervision of mining organizations and controlled enterprises; management of underground reserves of government-owned mines and supervision of mines; and other matters not specifically assigned to other sections in the Bureau.

MINING REGISTRATION SECTION

The Mining Registration Section is responsible for matters pertaining to permission, disposition, transfer, registration, and survey of mining rights.

FUEL SECTION

The Fuel Section is responsible for matters pertaining to policies and plans relating to fuels; management of coal production and supplies; and management of petroleum, gas, briquettes, heat control, liquid fuel, substitute fuel, and other fuel supplies.

MINING PRODUCTION SECTION

The Mining Production Section is responsible for matters pertaining to development, promotion and production guidance of metallic, non-metallic and rare mineral mines.

MINING SECURITY SECTION

The Mining Security Section is responsible for matters pertaining to guidance and enlightment of mining security; and mining security facilities and inspection thereof.

ELECTRICITY BUREAU

The Electricity Bureau is established under the Assistant Vice-Minister for Mining and Industry and shall have an Electric Administration Section, an Electric Power Section and a Construction Section.

ELECTRIC ADMINISTRATION SECTION

The Electric Administration Section is responsible for matters pertaining to policies and plans relating to electricity; guidance and promotion of electric business, electric construction projects and control of electric power; supervision of the Korea Electric Power Company; and other matters not specifically assigned to other sections in the Bureau.

ELECTRIC POWER SECTION

The Electric Power Section is responsible for matters pertaining to electric power generation and distribution plans and power allocation; operation of power plants and transformer substations, power distribution facilities and electric accidents; and control of electric equipment.

CONSTRUCTION SECTION

The Construction Section is responsible for matters pertaining to survey of electric power resources and power plants and power generating facilities (not including power distribution facilities).

FIRST INDUSTRY BUREAU

The First Industry Bureau is established under the Assistant Vice-Minister for Mining and Industry and shall have a Light Industry Section, a Small and Medium Industry Section, a Light Chemical Section, a Heavy Chemical Section, a Textile Section, and a Salt Management Section.

LIGHT INDUSTRY SECTION

The Light Industry Section is responsible for matters pertaining to policies and plans relating to light industry; resource survey; production report; statistical survey; preparation and operation of material supply program; management and supervision of industrial organizations and light industry government-invested enterprises; guidance and promotion of handcraft industry; and other matters not specifically assigned to other sections in the Bureau.

SMALL AND MEDIUM INDUSTRY SECTION

The Small and Medium Industry Section is responsible for matters pertaining to survey and study of small and medium industry; supervision of the Small and Medium Industry Cooperative Association; allocation of small and medium industry funds; and management guidance of small and medium industry.

LIGHT CHEMICAL SECTION

The Light Chemical Section is responsible for matters pertaining to plans and statistical survey relating to the light chemical industry; and guidance and promotion of industries concerned with synthetic resin, rubber, tires, leather, celluloid, industrial tallow, paint, dye, printing, soap, food lard, foodstuffs and drinks, paper mills, explosives, sugar refinery and other organic chemicals.

HEAVY CHEMICAL SECTION

The Heavy Chemical Section is responsible for matters pertaining to plans and statistical survey relating to the heavy chemical industry; guidance and promotion of industries producing fertilizer, oil refinery, lubricants, acid, alkali, and other inorganic chemicals; and guidance and promotion of industries producing cement, chinawares, flat glass, ordinary glassware, grinding, nitre, pencils and other cement products.

TEXTILE SECTION

The Textile Section is responsible for matters pertaining to plans and statistical survey relating to the textile industry; guidance and promotion of weaving and spinning industry, silk industry, cotton ginning industry, and chemical fabrics industry; clothing and textile products, and textile dyeing.

SALT MANAGEMENT SECTION

The Salt Management Section is responsible for matters pertaining to plans and statistical survey relating to salt management; adjustment of salt supply and demand; salt production guidance and salt price adjustment; salt field development; and permission of salt production.

SECOND INDUSTRY BUREAU

The Second Industry Bureau is established under the Assistant Vice-Minister for Mining and Industry and shall have a Heavy Industry Section, an Electric Industry Section, a Machinery Section, a Metallic Section, and a Shipbuilding Section.

HEAVY INDUSTRY SECTION

The Heavy Industry Section is responsible for matters pertaining to policies and plans relating to heavy industry; resource survey; production report; statistical survey; material supply and demand program; management supervision of industrial organizations or government-invested enterprises concerned with heavy industry; and other matters not specifically assigned to other sections in the Bureau.

ELECTRIC INDUSTRY SECTION

The Electric Industry Section is responsible for matters pertaining to technical improvement relating to heavy electric machinery and equipment, electric equipment and electric lines industries; technical improvement relating to industries of communications machinery and equipment, light electric machinery and equipment; and material supply and demand program.

MACHINERY SECTION

The Machinery Section is responsible for matters pertaining to guidance and promotion of the machinery industry, automobile industry, farm machinery and equipment industry, and cannery industry.

METALLIC SECTION

The Metallic Section is responsible for matters pertaining to guidance and promotion of iron foundry, steel smeltry, rolling and casting, metallurgy, and non-ferrous metalloid industry.

SHIPBUILDING SECTION

The Shipbuilding Section is responsible for matters pertaining to policies and plans relating to shipbuilding; licensing and management of shipbuilding firms; approval and supervision of shipbuilding and renovation projects; promotion of shipbuilding; management of shipbuilding funds and material demand supply program; and matters concerning vessels mutual welfare activities.

BUREAU OF PATENT

The Bureau of Patent is established under the jurisdiction of the Minister of Commerce and Industry for the purpose of administering matters pertaining to designs, patents, practical new devices, trade marks, and patent attorneys. The Bureau of Patent shall have a General Affairs Section, an Application and Registration Section, a Review and Coordination Section, a Record Section, and a Reference Material Section.

BUREAU OF STANDARDS

The Bureau of Standards is established under the jurisdiction of the Minister of Commerce and Industry for the purpose of administering matters pertaining to standards of mineral and industrial products. The Bureau shall have a General Affairs Section, a Standards Section, and a Specification Section.

BUREAU OF WEIGHT AND MEASURES

The Bureau of Weight and Measures is established under the jurisdiction of the Minister of Commerce and Industry to take charge of matters pertaining to weight and measures. The Bureau shall have a General Affairs Section, Guidance Section, and an Inspection Section.

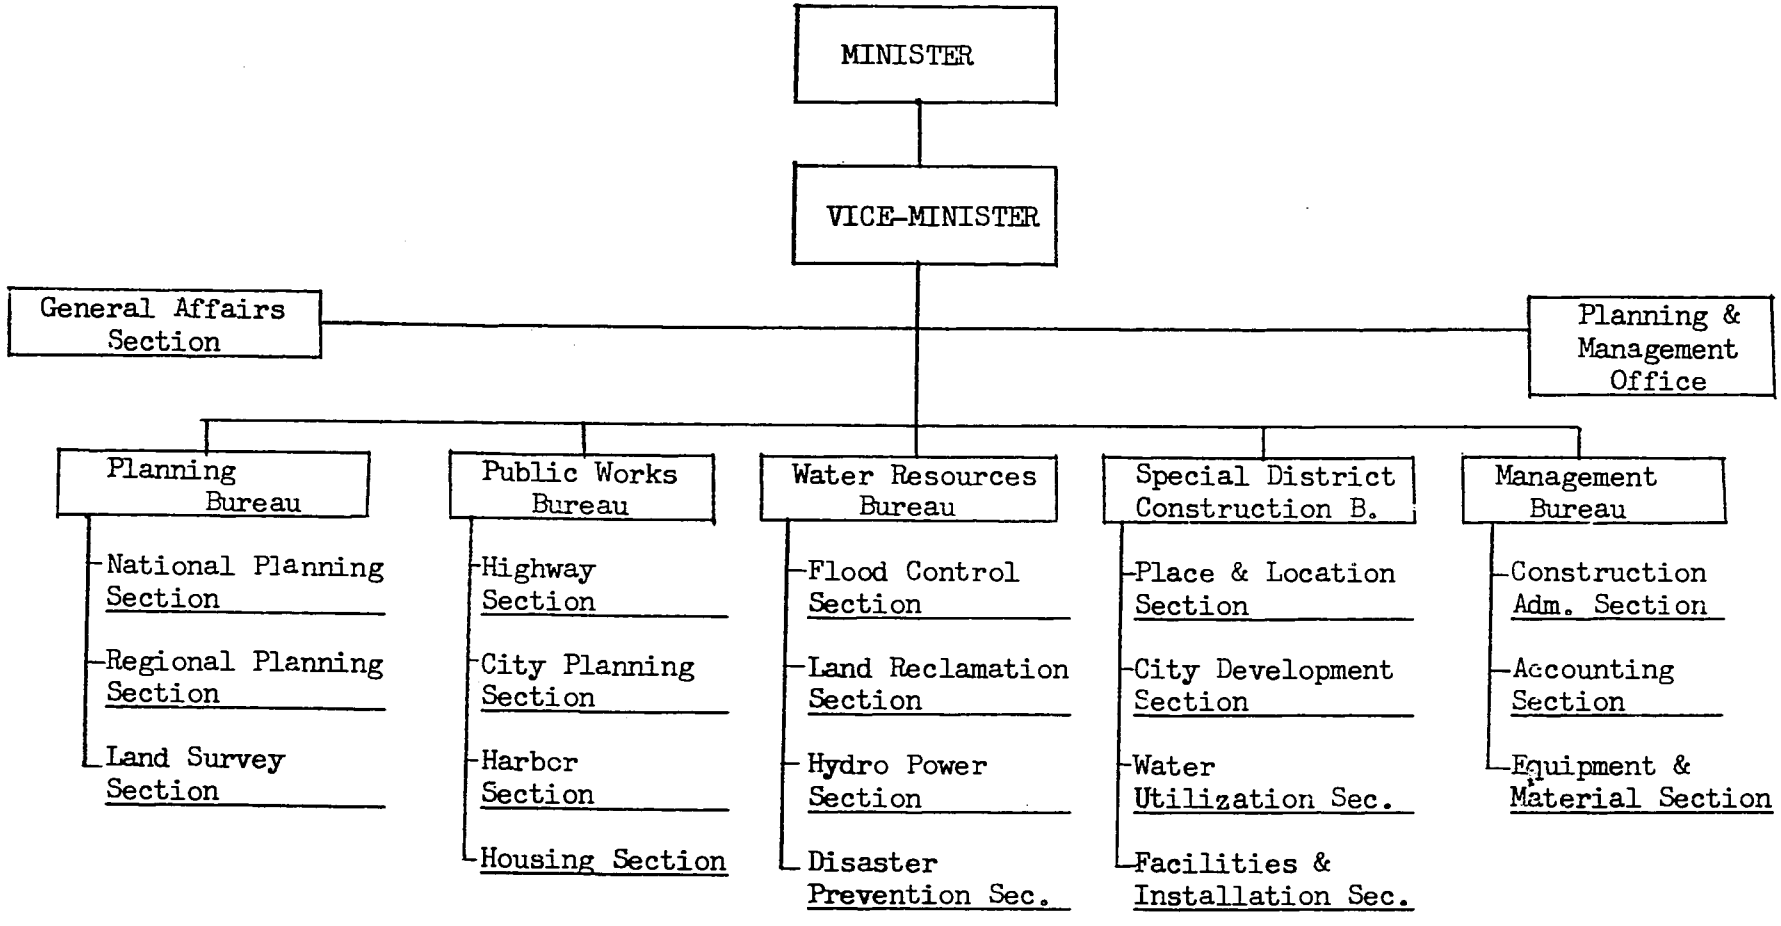
OFFICE OF GEOLOGICAL SURVEY OF KOREA

The Office of Geological Survey of Korea is established under the jurisdiction of the Minister of Commerce and Industry for the purpose of conducting scientific surveys of underground resources and the nature of the soil for land development, promotion of mining development, and improvement of mining skills and techniques. The Office shall have a General Affairs Section, General Geology Division, Exploration Division, and a Taejon Laboratory.

NATIONAL INDUSTRIAL RESEARCH INSTITUTE

The National Industrial Research Institute is established under the supervision of the Minister of Commerce and Industry for the purpose of conducting scientific industrial surveys, industrial technical testing, industrial technical study, industrial technical guidance, and testing, analyzing and apprasing of industrial raw materials. The Institute shall have a General Affairs Section, Inorganic Chemistry Department, a Ceramics Industry Department, a Mechanical Engineering Department, a Organic Chemistry Department, a Textile Industry Department, a Food Industry Department, and an Export Commodity Inspection Division.

MINISTRY OF CONSTRUCTION



MINISTRY OF CONSTRUCTION

The Ministry of Construction is responsible for matters pertaining to the establishment of a overall national development plan; coordination of various levels of national construction plans; preservation, utilizations, development and renovation of lands and hydro-resources; construction of highways, cities, ports (not including fishing ports and related facilities), housing; and rivers and tidal flat reclamations (not including tidal flat reclamations for the purpose of farming). The Ministry shall have a Planning and Management Office, a General Affairs Section, a Planning Bureau, Public Works Bureau, a Water Resources Bureau, a Special District Construction Bureau, and a Management Bureau. Also the Ministry shall have a National Construction Research Institute, a Construction Officials' Training Institute, and Offices of Regional Construction.

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and plans; establishment of guidances for consolidating and coordinating basic operational plans; coordination of the formulation and execution of the budget; review and analysis of the progress of projects and results; management of the organization and staff ceiling and the position classification and salary systems; supervision of the establishment and enforcement of management improvement programs and management of surveys; maintenance and analysis of administrative statistics; work inspections; review of drafts of laws, regulations, and appeals; and the compilation and publication of laws and regulations.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to security and custody of official seals; the receipt, dispatch, control and custody of official documents and other records management; accounting, settlement of accounts, and execution of the budget; office supplies and furniture; management of national properties; accounting inspections, matters pertaining to appointment, service, training, pension and other personnel management affairs of public officials assigned to the Ministry; and other matters not specifically assigned to the other sections.

PLANNING BUREAU

The Planning Bureau shall have a National Planning Section, a Regional Planning Section, and a Land Survey Section.

NATIONAL PLANNING SECTION

The National Planning Section is responsible for matters pertaining to review, drafting and coordination of comprehensive national construction plans; evaluation of effective of comprehensive national construction projects; operation of the Overall National Construction Projects Review Committee; selection of industrial sites in accordance with overall national construction plans; planning of quantity and allocation of various basic materials for comprehensive national construction plans; and other matters not specifically assigned to other sections in the Bureau.

REGIONAL PLANNING SECTION

The Regional Planning Section is responsible for matters pertaining to provincial plans under comprehensive national construction plans; survey and drafting of comprehensive national construction plans for special districts; and request for designation of specific areas.

LAND SURVEY SECTION

The Land Survey Section is responsible for matters pertaining to land survey; coordination of land survey projects; confirmation of results of land surveys; and requests and recommendations for land survey.

PUBLIC WORKS BUREAU

The Public Works Bureau shall have a Highway Section, a City Planning Section, a Harbor Section, and a Housing Section.

HIGHWAY SECTION

The Highway Section is responsible for matters pertaining to highways and other matters not specifically assigned to other sections in the Bureau.

CITY PLANNING SECTION

The City Planning Section is responsible for matters pertaining to city planning; water works and sewage systems; architectural administration; and operation of the City Planning Committee.

HARBOR SECTION

The Harbor Section is responsible for matters pertaining to ports and canals; guidance and maintenance of works concerning ports and canals; dredging of ports and canals; and maintenance and management of engineering vessels in ports and canals.

HOUSING SECTION

The Housing Section is responsible for matters pertaining to surveys and plans concerning housing; guidance and supervision of housing construction; improvement and promotion of housing construction; operation and management of housing funds; and guidance and supervision of the Korea Housing Corporation.

WATER RESOURCES BUREAU

The Water Resources Bureau shall have a Flood Control Section, a Land Reclamation Section, a Hydro Power Section, and a Disaster Prevention Section.

FLOOD CONTROL SECTION

The Flood Control Section is responsible for matters pertaining to comprehensive water resource development plans; planning, management, maintenance, and supervision of flood control, water utilization, and hydrographic projects; filling of publicly owned waters of rivers and lakes; and other matters not specifically assigned to other sections in the Bureau.

LAND RECLAMATION SECTION

The Land Reclamation Section is responsible for matters pertaining to planning and work on irrigation and tidal flat land reclamation in specific areas in accordance with overall national construction plans; and planning implementation improvement, and management of irrigation and tidal flat reclamation projects for the purpose of development of water resources.

HYDRO POWER SECTION

The Hydro Power Section is responsible for matters pertaining to planning and construction of dams in specific areas in accordance with comprehensive national construction plans; construction of dams for the purpose of comprehensive development of water resources; guidance and supervision concerning construction of hydro power plants and subordinate facilities thereof; basic survey of hydro power plant sites; and guidance and supervision of planning of dam construction.

DISASTER PREVENTION SECTION

The Disaster Prevention Section is responsible for matters pertaining to prevention of and precaution against storms and floods; disaster prevention and statistics; comprehensive control of rehabilitation funds for disaster damages on public civil engineering facilities; disaster prevention plans for recurrent disaster areas; operation of the Typhoon and Flood Control Committee; and guidance and supervision of disaster rehabilitation projects.

SPECIAL DISTRICT CONSTRUCTION BUREAU

The Special District Construction Bureau shall have a Place and Location Section, a City Development Section, a Water Utilization Section, and a Facilities and Installation Section.

PLACE & LOCATION SECTION (GEOGRAPHICAL CONDITIONS)

The Place and Location Section is responsible for matters pertaining to the survey and drafting of plans for promotion of industrial areas in specific regions; acquisition and reparation of industrial lands in specific regions; introduction of industrial plants and economic surveys in specific regions; and other matters not specifically assigned to other sections in the Bureau.

CITY DEVELOPMENT SECTION

The City Development Section is responsible for matters pertaining to city planning in specific areas; plans and surveys concerning housing in specific areas; and plans for installation of sewage systems in specific areas.

WATER UTILIZATION SECTION

The Water Utilization Section is responsible for matters pertaining to surveys and plans concerning industrial water in specific areas; planning of water works installations in specific areas; and surveys and plans concerning flood control in specific areas.

FACILITIES AND INSTALLATION SECTION

The Facilities and Installation Section is responsible for matters pertaining to plans and surveys concerning ports and canals in specific areas; plans and surveys concerning filling of publicly owned waters in specific areas; and other public facilities in specific areas.

MANAGEMENT BUREAU

The Management Bureau shall have a Construction Administration Section, an Accounting Section, and an Equipment and Material Section.

CONSTRUCTION ADMINISTRATION SECTION

The Construction Administration Section is responsible for matters pertaining to expropriation and use of lands; licensing and management of construction engineers; operation of the Land Expropriation Committee and the Construction Engineers' Review Committee; guidance and supervision of the Korean Construction Association and the Constructors' Mutual Welfare Association; recommendations for overseas travels by non-governmental individuals and invitation of foreigners relating to construction; and other matters not specifically assigned to other sections in the Bureau.

ACCOUNTING SECTION

The Accounting Section is responsible for matters pertaining to execution, accounting, and settlement of accounts of re-allocated budget; conclusion of contracts under special accounts; and exercise of credit rights.

EQUIPMENT AND MATERIAL SECTION

The Equipment and Material Section is responsible for matters pertaining to the supply and demand program for equipment and materials necessary for construction projects; procurement, supply, maintenance, and repair of equipment and materials; and operation of the Heavy Equipment Shop.

NATIONAL CONSTRUCTION RESEARCH INSTITUTE

The National Construction Research Institute is established under the Minister of Construction in order to conduct matters pertaining to the examination of construction projects; study of survey standards; technical guidance and improvement of study for construction techniques; land surveys; preparation of maps; and geographical survey. The Institute shall have a General Service Section, a Standard Section, a Examination Section, a Survey Section, and a Map Section.

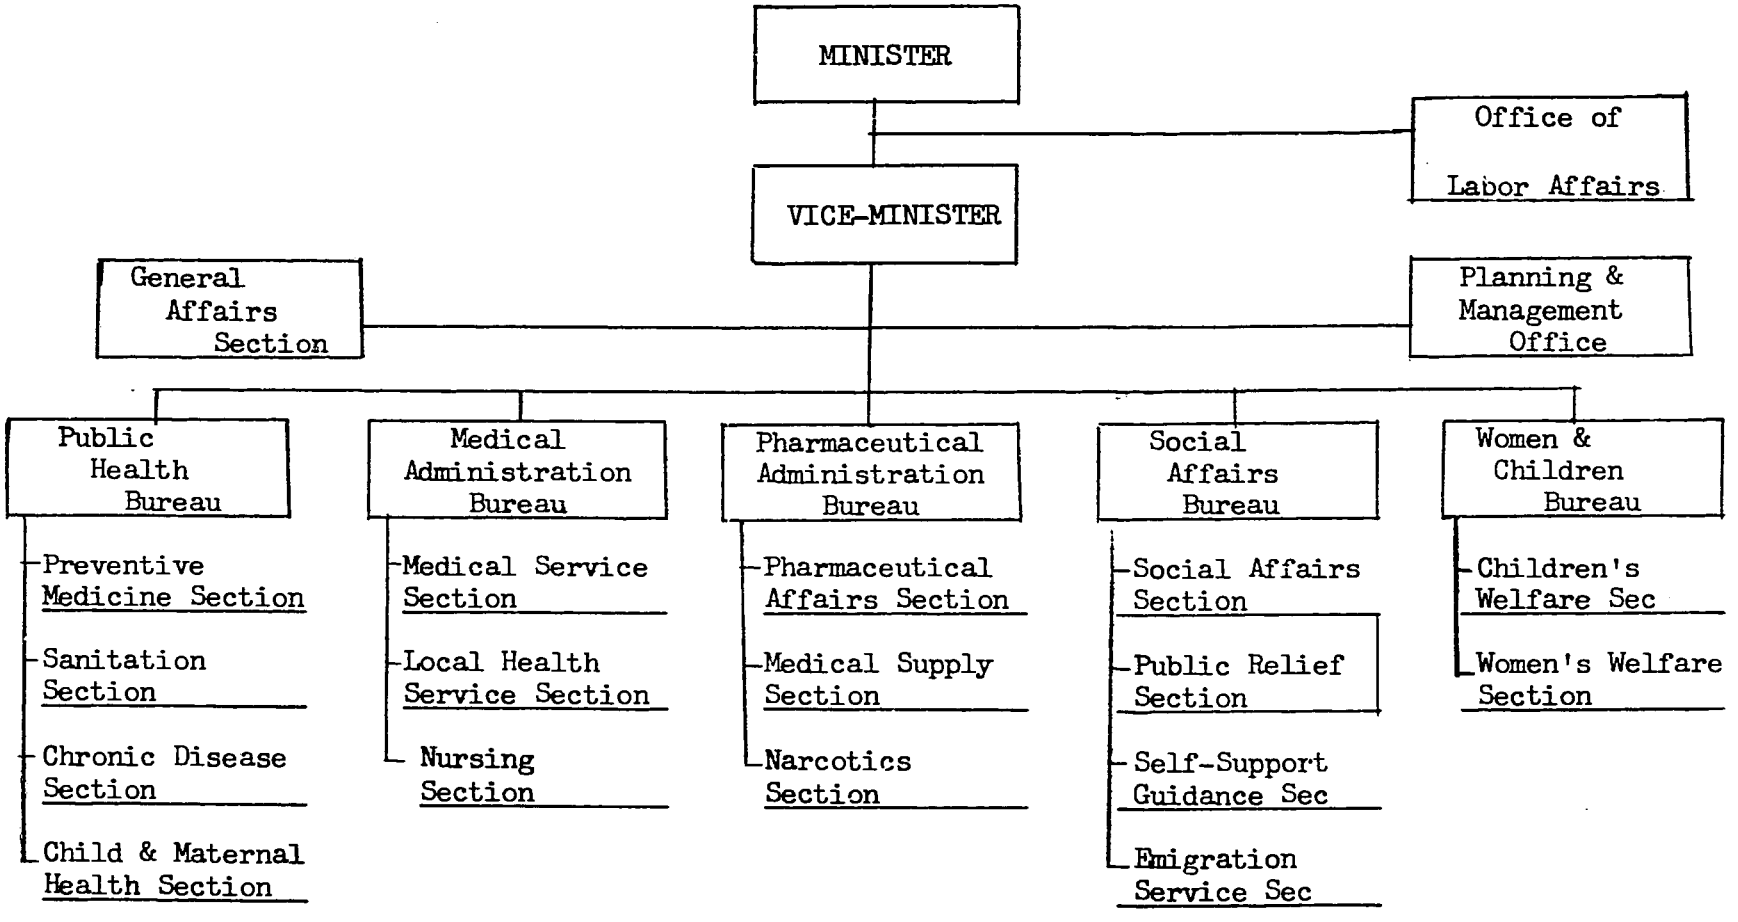
CONSTRUCTION OFFICIALS' TRAINING INSTITUTE

The Construction Officials' Training Institute is established under the jurisdiction of the Minister of Construction in order to conduct education and training for the acquisition of knowledge and technology required for the performance of duties by public officials engaged in construction field. The Institute shall have a General Service Section and a Instruction Section.

OFFICES OF REGIONAL CONSTRUCTION

The Offices of Regional Construction are established under the Minister of Construction for the purpose of executing national public works projects. The Offices are Office of Central National Construction (Seoul), Office of Homan National Construction (Ili), Office of Yungnam National Construction (Pusan), and Office of Taebaiksan National Construction (Yungju).

MINISTRY OF HEALTH & SOCIAL AFFAIRS



MINISTRY OF HEALTH & SOCIAL AFFAIRS

The Ministry of Health and Social Affairs is responsible for matters pertaining to public health, epidemic prevention, hygiene and sanitation, medical administration, pharmaceutical administration, public relief, selfsupport guidance, emigration, women and children's welfare, and family planning. The Ministry shall have a Planning and Management Office, a General Affairs Section, a Public Health Bureau, a Medical Administration Bureau, a Pharmaceutical Administration Bureau, a Social Affairs Bureau, and Women and Children Bureau. Also the Ministry shall have a National Rehabilitation Center, a National Women's Vocational Training Institute, a National Samyook Educational Institute, a National Social Worker's Training Institute, a National Boy's Vocational Training Institute, National Harbor and Airport Quarantine Stations, National Leper Houses, National Tuberculosis Sanatoriums, a National Mokpo Educational Institute, a National Mentally Retarded Children's Institute, a National Mental Hospital, a National Public Health Institute, a National Medical Center, and an Office of Labor Affairs.

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and plans; establishment of guidelines for consolidating and coordinating basic operational plans; coordination in the formulation and execution of the budget; review and analysis of progress of projects and results; management of the organization and staff ceiling and position classification and salary systems; supervision of the establishment and enforcement of management improvement programs and management surveys; maintaining and analysis of administrative statistics; work inspection; review of drafts of laws, regulations, and appeals; and the compilation and publication of laws and regulations.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to security; custody of official seals; the receipt, dispatch, control and custody of official documents and other records managements; accounting, settlement of accounts, and execution of the budget; office supplies and furniture; management of national properties; and accounting inspections; matters pertaining to appointment, service, training, pension and other personnel management affair, of public officials assigned to the Ministry; and other matters not specifically assigned to the other sections.

PUBLIC HEALTH BUREAU

The Public Health Bureau shall have Preventive Medicine Section, a Sanitation Section, a Chronic Disease Section and a Child & Maternal Health Section.

PREVENTIVE MEDICINE

The Preventive Medicine Section is responsible for matters pertaining to infectional deseases and regional diseases, public health, epidemic prevention at seaports, cooperation with the World Health Organization, enlightenment tours with regard to public health and hygiene; and other matters which are not assigned to other sections of the Bureau.

SANITATION SECTION

The Sanitation Section is responsible for matters concerning sanitation of water works and sewage system; disposal of garbage and cleaning; food hygiene and environment hygiene; hygiene of entertainment places, foodstuff manufacturing, and processing places; sanitation facilities and extermination of insects and rodents; hyginee relating to barbers, hair-dressers, cooks and nutritionists; hygiene of entertainment places and other places of

assembly; prevention of public health hazards; hygiene relating to burials and cemetries; disposition of dead livestock and places thereof; and other public sanitation.

CHRONIC DISEASE SECTION

The Chronic Disease Section is responsible for matters concerning tuberculosis and leprosy; cooperation with international organizations relating to the control of tuberculosis and leprosy; and guidance and supervision of medical establishments relating to tuberculosis and leprosy.

CHILD & MATERNAL HEALTH SECTION

The Child and Maternal Health Section is responsible for matters concerning training, assignment, guidance, and supervision of family planning; enlightenment relating to family planning and supply of medical preparations and equipment for contraception; health guidance for pregnant women and infants; encouragement and practice of surgical contraceptive methods; population census; introduction of foreign aid for family planning; and other family planning.

MEDICAL ADMINISTRATION BUREAU

The Medical Administration Bureau shall have a Medical Service Section, a Local Health Service Section, and a Nursing Section.

MEDICAL SERVICE SECTION

The Medical Service Section is responsible for matters pertaining to examination, license and registration of physicians, dentists, and herb physicians; guidance and supervision of medical associations, dental associations, and herb medical associations; control of those operating illegal medical practices and quasi-medical practices; blood transfusion; recommendation for overseas travel of persons relating to medicine; and other matters which are not assigned to other sections of the Bureau.

LOCAL HEALTH SERVICE SECTION

The Local Health Service Section is responsible for matters pertaining to management and operating supervision of medical establishments (excluding establishments relating to tuberculosis and leprosy); training of public health personnel; roving medical service treatment and measures for villages without physicians; mental health; medical insurance; medical relief; and management of national nutrition.

NURSING SECTION

The Nursing Section is responsible for matters concerning midwifery and nursing activities; examination, license and registration of nurses; guidance and supervision of the Nurses' Association and the Midwives' Association; and guidance and promotion of nursing school.

PHARMACEUTICAL ADMINISTRATION BUREAU

The Pharmaceutical Administration Bureau shall have a Pharmaceutical Affairs Section, a Medical Supply Section, and a Narcotics Section.

PHARMACEUTICAL AFFAIRS SECTION

The Pharmaceutical Affairs Section is responsible for matters pertaining to registration and advance approval of production of pharmaceutical products, medical equipment, hygienic articles, para-medical supplies, cosmetics and poisonous or caustic substances; examination, licensing, and registration of pharmacists; operation of the Pharmaceutical Review Committee; guidance and supervision of pharmaceutical organizations; surveillance over pharmaceutical substances (including poisonous and caustic substances); and other matters which are not assigned to other sections of the Bureau.

MEDICAL SUPPLY SECTION

The Medical Supply Section is responsible for matters concerning the supply and demand for and production control of pharmaceutical products, medical equipment, hygienic articles, para-medical supplies, cosmetics and poisonous or caustic substances; export and import permits for pharmaceutical products, medical equipment, hygienic articles, para-medical supplies, cosmetics and poisonous or caustic substances; guidance and promotion of production plants of pharmaceutical products, medical equipment, hygienic articles, para-medical supplies, cosmetics and poisonous or caustic substances; and productive and technical guidance of pharmaceutical products.

NARCOTICS SECTION

The Narcotics Section is responsible for matters concerning adjustment of supply and demand for narcotics; licensing and registration of narcotics handlers and surveillance over narcotics transactions and consumption; control of illegal narcotics and addicts and their quartering and treatment; disposition of confiscated narcotics; and international organizations relating to the control of narcotics.

SOCIAL AFFAIRS SECTION

The Social Affairs Bureau shall have a Social Affairs Section, Public Relief Section, a Self-Support Guidance Section, and an Emigration Service Section.

SOCIAL AFFAIRS SECTION

The Social Affairs Section is responsible for matters concerning surveys and researches on social welfare activities; guidance and supervision of social works organizations (excluding juridical persons provided under Item 2 Paragraph 1 of Article 25 and woman's organizations provided under Item 4 of Article 26), and the Korea Red Cross; protection of the aged, disabled, and sick persons and rehabilitation of disabled persons; cooperation of international social works organizations; allocation and handling of goods brought in by non-governmental aid organizations; operation of the Relief Consultation Committee; and other matters which are not assigned to other sections of the Bureau.

PUBLIC RELIEF SECTION

The Public Relief Section is responsible for matters concerning survey and protection of the eligible for relief; labor relief for the eligible for protection; relief grains and relief goods; disaster relief and emergency relief; and operation of the Disaster Relief Countermeasures Committee.

SELF-SUPPORT GUIDANCE SECTION

The Self-Support Guidance Section is responsible for matters pertaining to surveys and researches on self-support settlement projects; selection of self-support settlers and settlement sites; self-supporting activities of destitute people; support to construction of destitute people's houses and disaster houses; and technical guidance for self-support.

EMIGRATION SERVICE SECTION

The Emigration Service Section is responsible for matters pertaining to surveys and researches on emigration and work out of emigration plans; status survey of emigrating countries and negotiations for emigration; recruitment, selection and training of emigrants; investigation of qualifications of emigrants and permission of emigration; arrangements, guiding and guidance for emigration; and guidance and supervision of emigration organizations.

WOMEN & CHILDREN BUREAU

The Women & Children Bureau shall have a Children's Welfare Section and a Women's Affairs Section.

CHILDREN"S WELFARE SECTION

The Children's Welfare Section is responsible for matters concerning guidance and enlightenment of women; protection of women and establishments therefore; proper guidance of fallen women; permission of establishing women's organizations, and guidance and guidance and promotion thereof; employment arrangements for women; and consultations on women's problems.

WOMEN"S AFFAIRS SECTION

The Women's Affairs Section is responsible for matters concerning guidance and enlightenment of women; protection of women and establishments therefore; proper guidance of fallen women; permission of establishing women's organizations, and guidance and promotion thereof; employment arrangements for women; and consultations on women's problems.

NATIONAL REHABILITATION CENTER

The National Rehabilitation Center is established under the jurisdiction of the Minister of Health and Social Affairs in order to conduct vocational training for the physical defectives. The Center shall have an Administration Section, a Medical Affairs Section, a Vocational Training Section, and an Artificial Limb Section.

NATIONAL WOMEN'S VOCATIONAL TRAINING INSTITUTE

The National Women's Vocational Training Institute is established under the jurisdiction of the Minister of Health and Social Affairs in order to conduct vocational training for misfortunate women. The Institute shall have a General Service Section and a Vocational Training Section.

NATIONAL SAMYOOK EDUCATIONAL INSTITUTE

The National Samyook Educational Institute is established under the Minister of Health and Social Affairs in order to conduct education and medical treatment for uninfected children of lepers.

NATIONAL SOCIAL WORKER'S TRAINING INSTITUTE

The National Social Worker's Training Institute is established under the jurisdiction of the Minister of Health and Social Affairs in order to conduct education and training for persons engaged in social work and those desiring to become social workers. The Institute shall have a General Service Section and a Training Section.

NATIONAL BOY'S VOCATIONAL TRAINING INSTITUTE

The National Boy's Vocational Training Institute is established under the jurisdiction of the Minister of Health and Social Affairs in order to conduct vocational training for future self-support and to develop suitable personalities in children from orphanages who have completed their elementary education. The Institute shall have a General Service Section, a Training Affairs Section, and a Living Guidance Section.

NATIONAL HARBOR AND AIRPORT QUARANTINE STATIONS

The National Harbor and Airport Quarantine Stations are established under the jurisdiction of the Minister of Health and Social Affairs for the purpose of preventing the entrance and exit of communicable diseases. The Stations are located in Inchon, Pusan, Masan, Kunsan, Mokpo, Yusoo, Mukho, Cheju and Seoul International Airport.

NATIONAL LEPER HOUSES

The National Leper Houses are established under the jurisdiction of the Minister of Health and Social Affairs and responsible for the relief and treatment of leprosy. Each House shall have a General Affairs Section, a Medical Affairs Section, an Instruction and Guidance Section, and a Protection and Healing Section.

NATIONAL TUBERCULOSIS SANATORIUMS

The National Tuberculosis Sanatoriums are established under the jurisdiction of the Minister of Health and Social Affairs in order to provide facilities and medical treatment for tuberculosis patients. The Sanatoriums are are located in Kongju and Masan.

NATIONAL MOKPO EDUCATIONAL INSTITUTE

The National Mokpo Educational Institute is established under the jurisdiction of the Minister of Health and Social Affairs in order to conduct correctional training of vagrant children according to the Children's Welfare Law. The Institute shall have a General Affairs Section and a Guidance Section.

NATIONAL MENTALLY RETARDED CHILDREN'S INSTITUTE

The National Mentally Retarded Children's Institute is established under the jurisdiction of the Minister of Health and Social Affairs in order to provide nursing and education necessary for developing the capacities of mentally retarded children. The Institute shall have a General Service Section, a Facilities Section, and a Guidance Section.

NATIONAL MENTAL HOSPITAL

The National Mental Hospital is established under the jurisdiction of the Minister of Health and Social Affairs in order to provide medical treatment, survey and study of mental patients, and training of medical staff. The Institute shall have a General Affairs Section, a Psychiatry Department, a Mental Medicine Department, a Surgery Department, a X-Ray Department, a Clinical Pathology Department, an Occupational Therapy Department, a Pharmacy Department, and a Nursing Department.

NATIONAL PUBLIC HEALTH INSTITUTE

The National Public Health Institute is established under the jurisdiction of the Minister of Health and Social Affairs in order to perform survey, study and evaluation of national public health; technical training of public health officers; prevention of infectious diseases; production and examination of prevention medicines; experiments on pharmaceutical products and food; and study for improvement of pharmaceutical production technology. The Institute shall have an Administration Bureau, a Research and Training Division, a Microbiology Division, a Chemical Research Division, and an Inspection Division.

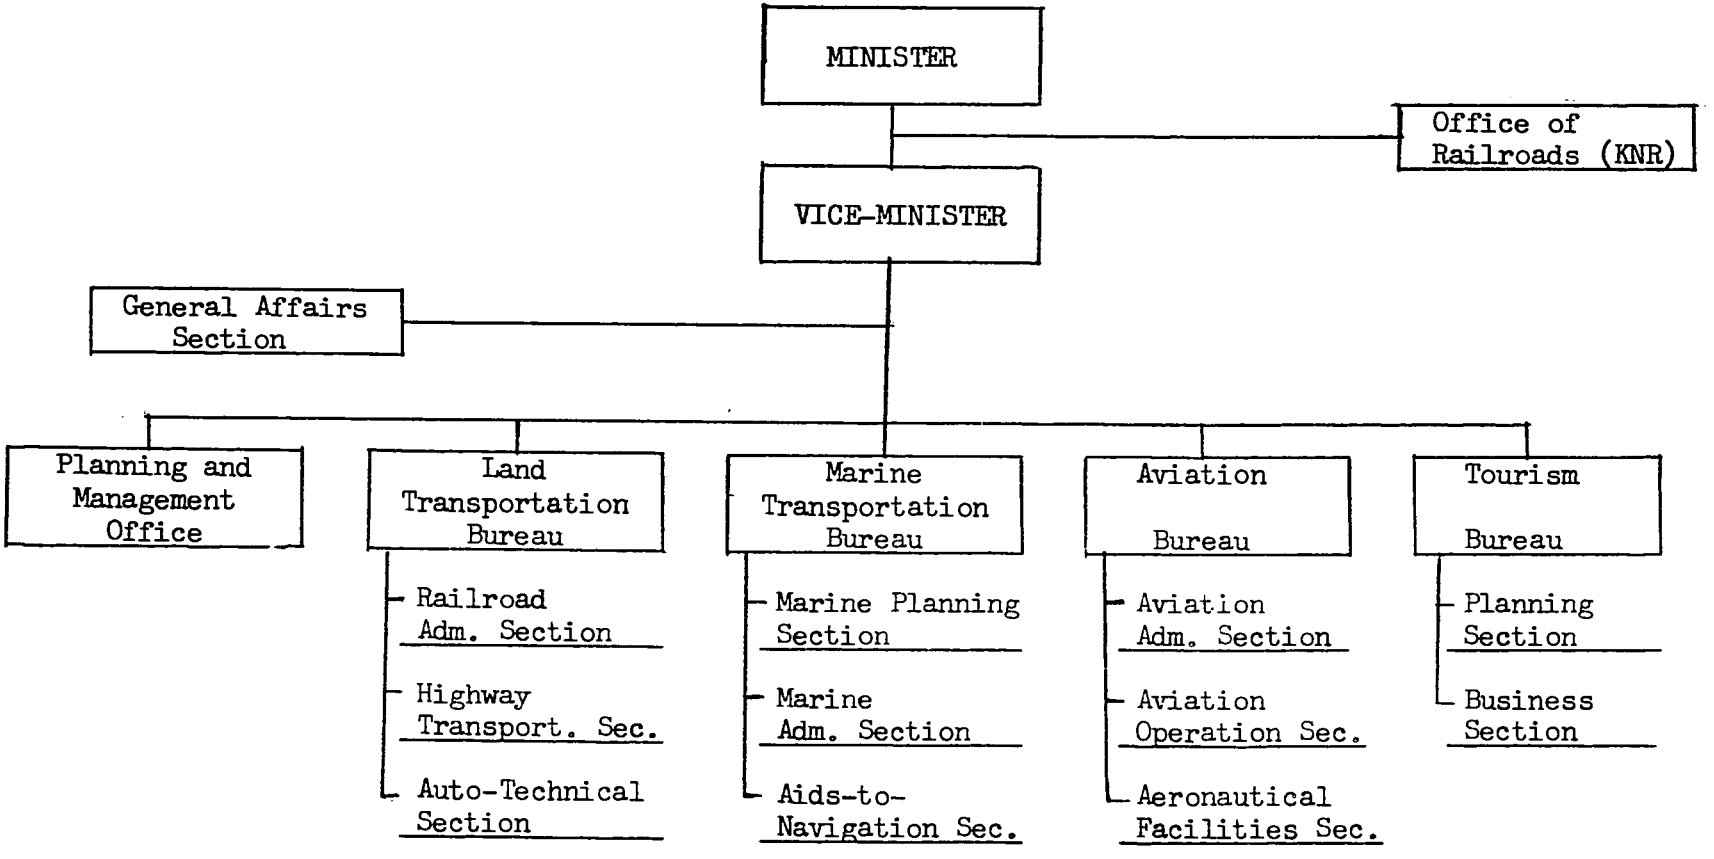
NATIONAL MEDICAL CENTER

The National Medical Center is established under the jurisdiction of the Minister of Health and Social Affairs in order to improve medical science and development medical programs according to the Agreement of Establishment and Operation of the National Medical Center between the Republic of Korea and the Scandinavian Countries, and also the Center is to provide medical treatment and feeding of patients, conduct medical research and training of doctors, interns, nurses, and technicians. The Center shall have a Secretariat, a Medical Division, and a Nurses School.

OFFICE OF LABOR AFFAIRS

The Office of Labor Affairs is established under the jurisdiction of the Minister of Health and Social Affairs. The Office is responsible for matters pertaining to labor unions, the Labor Affairs Committee, labor inspectors, working conditions for laborers, safety management, disaster reparation, employment security, labor supply, unemployment, labor statistics, public welfare for laborers, and other affairs concerning laborers. The Office shall have a Planning and Management Office, a General Affairs Section, a Labor Administration Bureau, and an Employment Security Bureau.

MINISTRY OF TRANSPORTATION



MINISTRY OF TRANSPORTATION

The Ministry of Transportation is responsible for matters pertaining to land transportation, marine transportation, aviation and tourism. The Ministry shall have a Planning and Management Office, a General Affairs Section, a Land Transportation Bureau, a Marine Transportation Bureau, an Aviation Bureau, and a Tourism Bureau. Also the Ministry shall have a Central Meteorological Office, a Maritime Accident Inquiry Committee, a National Aviation College, a Hydrographic Bureau, Regional Aviation Bureaus, a Navigation Signal Shop, Regional Marine Transportation Bureaus, and an Office of Railroads (KNR).

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and programs; establishment, consolidation, and coordination of guidelines for basic operational programs; coordination of the formulation and execution of the budget; review and analysis of progress and results of projects; management of organization and staff ceiling; position classification and salary systems; supervision of the establishment and enforcement of management programs and management surveys; maintenance and analysis of administrative statistics; review and draft of laws, regulations, and appeals; and compilation and publication of laws and regulations.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to the security; custody of official seals; the receipt, dispatch, control and custody of official documents and other record management; coordination and liaison with international transportation organizations; accounting, settlement of accounts, and execution of the budget; project contracts and management of national properties; and office supplies. Also matters pertaining to appointment, service, training, pension, public health, and other personnel affairs of public officials assigned to the Ministry and other matters not specifically assigned to the other sections.

LAND TRANSPORTATION BUREAU

The Land Transportation Bureau shall have a Railroad Administration Section, a Highway Transportation Section, and an Auto-Technical Section.

RAILROAD ADMINISTRATION

The Railroad Administration Section is responsible for matters pertaining to general affairs of the Bureau; coordination of railroad transportation and highway transportation; overall coordination of railroad policy and transportation plans; licensing , guidance, and supervision of transportation business; and other matters not specifically assigned to other sections in the Bureau.

HIGHWAY TRANSPORTATION SECTION

The Highway Transportation Section is responsible for matters pertaining to overall planning of automobile transportation business; fees and rates of automobile transportation business; licensing and supervision of automobile transportation business; guarantee of recompense against the

loss of automobiles; guidance and supervision of the Automobiles Transportation Cooperatives and their Federation; status survey of automobile transportation; and laws and regulations related to automobile transportation business.

AUTO-TECHNICAL SECTION

The Auto-Technical Section is responsible for matters pertaining to guidance of registration of automobiles; guidance and supervision of the automobiles inspection agency and license plate delivery agency; automobile statistics; guidance and supervision of automobile technology and investigation of accidents; inspection of automobiles; guidance and supervision of automobile maintenance business; training of automobile technicians; survey, maintenance and supply of automobile supplies; and automobiles security plans and designation of automobile models.

MARINE TRANSPORTATION BUREAU

The Marine Transportation Bureau shall have a Marine Planning Section, a Marine Administration Section, and a Aids-to-Navigation Section.

MARINE PLANNING SECTION

The Marine Planning Section is responsible for matters pertaining to general affairs of the Bureau; establishment of marine transportation policy; operation of ports and loading and unloading facilities; guidance and supervision of port cargo handlers; information on maritime transportation; survey of port situations; communications concerning port affairs; allocation of pilots and adjustment of pilot fees; establishment, guidance and supervision of maritime transportation organizations; passenger relief projects; and other matters not specifically assigned to other sections in the Bureau.

MARINE ADMINISTRATION SECTION

The Marine Administration Section is responsible for matters pertaining to navigation and maritime transportation; maritime traffic safety programs and prevention of maritime accidents; registration and insurance of crew; qualification examinations of maritime technicians, pilots and cargo inspectors; vessels supply plans; registration, inspection, export and import of vessels; alteration of vessels and examination of vessel fixtures; and other vessel administration.

AIDS-TO-NAVIGATION SECTION

The Aid-To-Navigation Section is responsible for matters pertaining to installation, improvement and repair of navigational aid facilities and navigational aid structure; guidance and supervision of the management and operation of navigational aid facilities; supervision of navigational aid shop; operational management of navigational aid vessels; announcement and public notice concerning navigational aid; and liaison and cooperation with international lighthouse organizations.

AVIATION BUREAU

The Aviation Bureau shall have an Aviation Administration Section, an Aviation Operation Section, and an Aeronautical Facilities Section.

AVIATION ADMINISTRATION SECTION

The Aviation Administration Section is responsible for matters pertaining to general affairs of the Bureau; establishment of aviation policies; improvement of aviation transportation business; laws and regulations related to aviation; international aviation treaties; liaison and cooperation with international private aviation organizations; development of aviation routes; and other matters not specifically assigned to other sections in the Bureau.

AVIATION PLANNING SECTION

The Aviation Planning Section is responsible for matters pertaining to overall aviation policies; guidance and operation of aviation facilities; guidance and supervision of aviation safety programs; adjustment of regulations for private airplane flights; management of aviation audit; guidance and supervision of aviation industry and maintenance; approval of airplane maintenance standards and inspection of airplanes; training of aviation technicians; and qualification examinations and aptitude certification.

AERONAUTICAL FACILITIES SECTION

The Aeronautical Facilities Section is responsible for matters pertaining to management of spatial territory and establishment of aviation routes; security of aviation routes and aviation communications; guidance and supervision of aviation security control and operation of communication facilities; investigation of airplane accidents; aviation meteorology and other aviation information; installation, improvement, and maintenance of electronic communications facilities; and guidance and supervision of planning, control and operation of airport facilities.

TOURISM BUREAU

The Tourism Bureau shall have a Planning Section and a Business Section.

PLANNING SECTION

The Planning Section is responsible for matters pertaining to general affairs of the Bureau; establishment of sigh-seeing policies; liaison and cooperation with international sigh-seeing organizations; research and development of domestic and overseas sight-seeing resources; publicity of domestic and foreign sight-seeing and inducement of tourists; qualification examination, training and registration of sight-seeing guides; and other matters not specifically assigned to other section in the Bureau.

BUSINESS SECTION

The Business Section is responsible for matters pertaining to licensing, permission, registration, guidance, and supervision of private sight-seeing agencies; improvement and guidance of sight-seeing facilities and souvenirs; technical improvement of sight-seeing places; tourist facilities funds and necessary materials; and supervision of the International Trourist Corporation.

CENTRAL METEOROLOGICAL OFFICE

The Central Meteorological Office is established under jurisdiction of the Minister of Transportation in order to performing matters related to meteorological observation. The Office shall have a General Affairs Section, a Planning Section, a Forecasting Section, a Observatory Section, Climatological Section, an Astronomical Section, Weather Stations, Meteorological Radio Transmission Stations, and a Meteorological Training Center.

MARITIME ACCIDENT INQUIRY COMMITTEE

The Maritime Accident Inquiry Committee is established under the Minister of Transportation in order to perform inquiry functions related to maritime accidents. The Committee shall be composed of a Chairman and four members.

NATIONAL AVIATION COLLEGE

The National Aviation College is established under the jurisdiction of the Minister of Transportation in order to conduct aviation training. The College shall have a General Service Section, an Academic Affairs Section, and a Training Air-Field.

HYDROGRAPHIC BUREAU

The Hydrographic Bureau is established under the jurisdiction of the Minister of Transportation. The Bureau is responsible for matters pertaining to hydrographic survey; observation of the ocean; publication of the hydrographic magazine; and exchange of information on hydrographics with international organizations. The Bureau shall have a General Service Section, a Planning Section, a Maritime Safety Section, a Survey Section, a Chart Section, and an Oceanography Section.

REGIONAL AVIATION BUREAU

The Regional Aviation Bureau is established under supervision and control of the Minister of Transportation. The Bureau is responsible for matters pertaining to operation and management of airports and airfields; aviation communications; aviation control; and aviation safety facilities. The Bureau shall have a General Service Section, International Airports, Domestic Airports, an Aeronautical Telecommunications Office, Air Traffic Control Office, and an Aeronautical Facilities and Maintenance Office.

NAVIGATION SIGNAL SHOP

The Navigation Signal Shop is established under supervision and control of the Minister of Transportation. The Shop is responsible for matters pertaining to test, preparation and renovation of navigational aid facilities, and navigational aid structures. The Shop shall have a General Service Section, a Technical Section, and a Work Shop.

REGIONAL MARINE TRANSPORTATION BUREAUS

The Regional Marine Transportation Bureaus are established under the supervision and control of the Minister of Transportation in order to perform functions related to marine transportation. Each Bureau shall have a General Service Section, a Marine Affairs Section, an Inspection and Ships Section, an Aids-To-Navigation Section, and several local branch offices. The Bureaus are located in Inchon, Kunsan, Mokpo, Yusoo, Pusan, Pohang, Mukho, and Cheju.

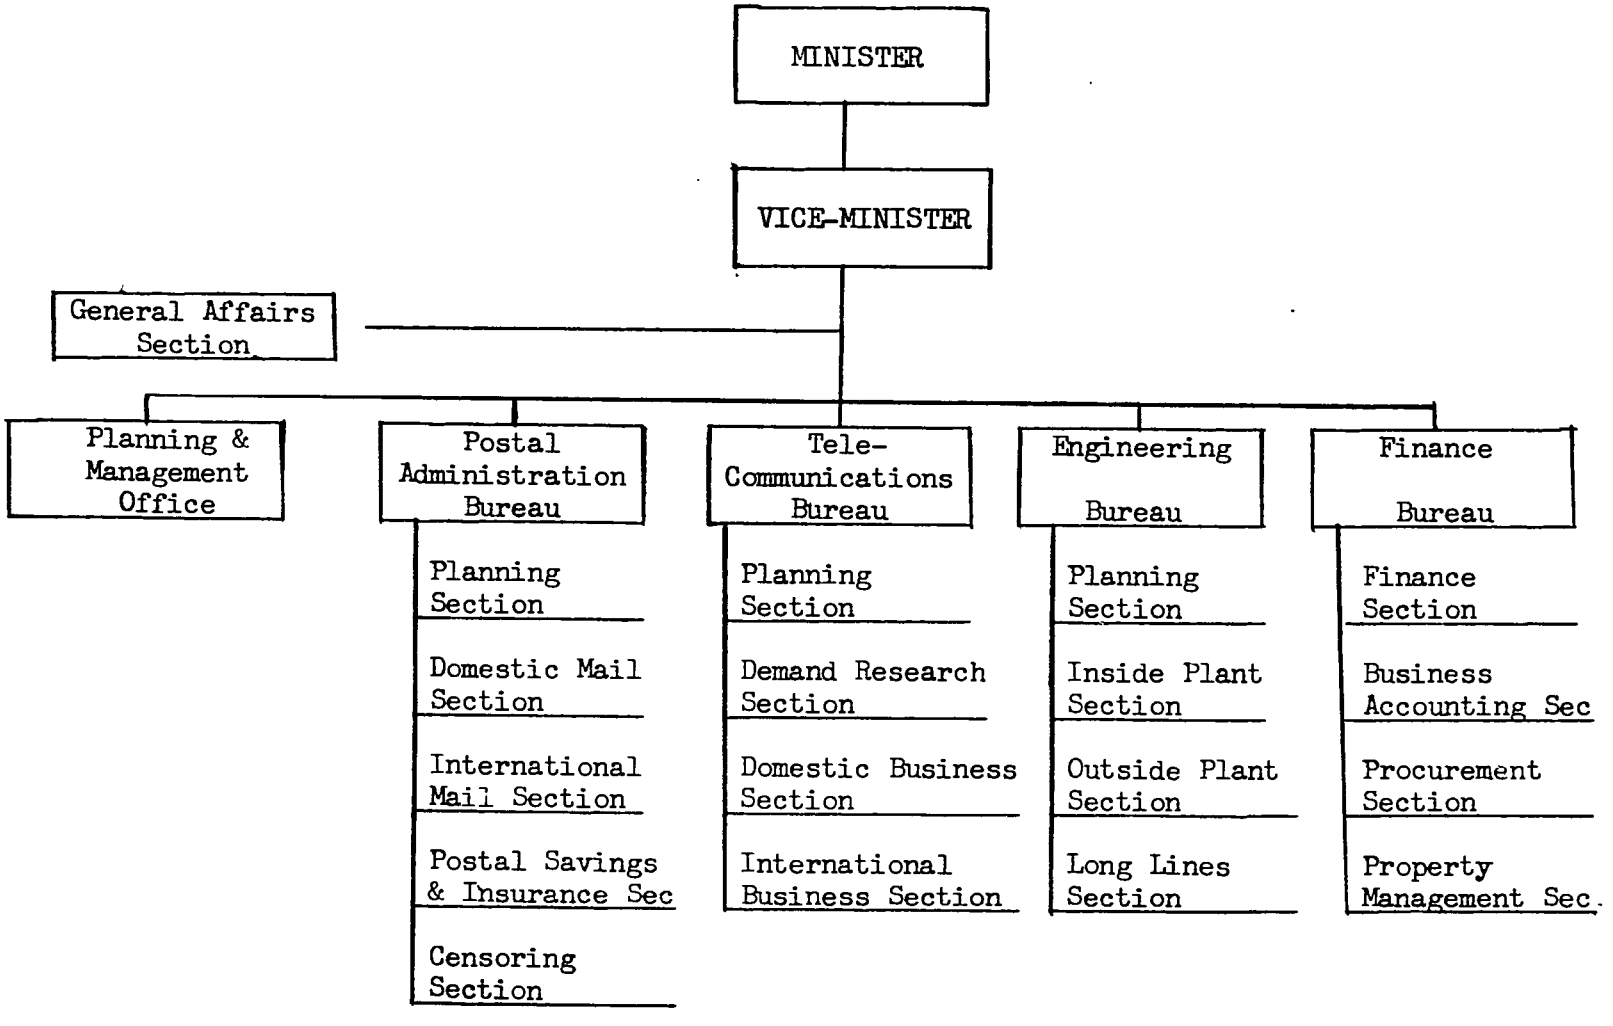
OFFICE OF RAILROADS

The Office of Railroads (Korean National Railroads) is established under the jurisdiction of the Minister of Transportation for purpose of administering matters pertaining to operation of national railroads and other related business. The Office shall have a Planning and Management Office, a General Affairs Section, a Transportation Bureau, an Engineering Bureau, a Machinery and Electricity Bureau, a Finance and Accounting Bureau, and a Supply Bureau. Also the Office shall have Railroad Hospitals, a Railroad Technical Research Institute, Back Shops, a Railroad Construction Bureau, Regional Railroad Bureaus, and Transportation Officials Training Institute.

TRANSPORTATION OFFICIALS' TRAINING INSTITUTE

The Transportation Officials' Training Institute is established under the Director of the Office of Railroads in order to conduct training for transportation officials to improve their knowledge and skills. The Institute shall have a Department of Faculty, a General Affairs Section, an Instruction Section, and a Library.

MINISTRY OF COMMUNICATIONS



MINISTRY OF COMMUNICATIONS

The Ministry of Communications is responsible for matters pertaining to mail, telegraph, telephone, postal exchange, postal savings, postal pensions and national life insurance. The Ministry shall have a Planning and Management Office, a General Affairs Section, a Postal Administration Bureau, a Telecommunications Bureau, an Engineering Bureau, and a Finance Bureau. Also, the Ministry shall have an Office of Radio Regulatory, an Electric and Communications Laboratory, a Communication Officials' Training Institute, a Telecommunication Training Center, Regional Communication Offices; and a Postal Savings and Insurance Bureau.

PLANNING AND MANAGEMENT OFFICE

The Planning and Management Office is responsible for matters pertaining to the consolidation and coordination of various policies and plans; establishment of guidelines for consolidating and coordinating basic operational plans; coordination in the formulation and execution of the budget; review and analysis of project status and results; management of the organization and staff ceiling; position classification and salary systems; supervision of the establishment and enforcement of management improvement programs and management surveys; maintenance and analysis of administrative statistics; work inspection; review of draft laws, regulations, and appeals; and the compilation and publication of laws and regulations.

GENERAL AFFAIRS SECTION

The General Affairs Section is responsible for matters pertaining to security; custody of official seals; the receipt, dispatch, control and custody of official documents and other records management; accounting, settlement of accounts, and execution of the budget; office supplies and furniture; management of national properties; and accounting inspections; matters pertaining to appointment, service, training, pension and other personnel management affairs of public officials assigned to the Ministry, and other matters not specifically assigned to the other sections.

POSTAL ADMINISTRATION BUREAU

The Postal Administration Bureau shall have a Planning Section, a Domestic Mail Section, an International Mail Section, a Postal Savings and Insurance Section, and a Censoring Section.

PLANNING SECTION

The Planning Section is responsible for matters pertaining to overall

planning and coordination of postal projects; formulation and budgetary execution for postal projects; establishment and abolishment of post offices; evaluation and progress of project status; research, study and the guidance of postal projects; and other matters not specifically assigned to other sections in the Bureau.

DOMESTIC MAIL SECTION

The Domestic Mail Section is responsible for matters pertaining to establishment of handling procedures for domestic mail; collection, delivery and forwarding of mail; issuance of postage stamps; postage stamp exhibitions; and military mail.

INTERNATIONAL MAIL SECTION

The International Mail Section is responsible for matters pertaining to establishment of handling procedures for international mail and international postal exchanges; treaties and agreements for international mail; establishment and revision of international mail rates; and forwarding contracts for international mail.

POSTAL SAVINGS AND INSURANCE SECTION

The Postal Savings and Insurance Section is responsible for matters pertaining to planning and guidance of postal exchange and postal savings programs; national life insurance, postal pensions, and pensions for military and police personnel; operation of postal savings funds and national life insurance deposits; designation of post offices receiving and handling excess funds; encouragement and publicizing savings; cash receipts, payments and accounting management of post, telegraph and telephone offices.

CENSORING SECTION

The Censoring Section is responsible for matters pertaining to mail inspection; guidance and supervision of postal inspection matters; and collection of informational data.

TELECOMMUNICATION BUREAU

The Telecommunication Bureau shall have a Planning Section, a Demand Research Section, a Domestic Business Section, and an International Business Section.

PLANNING SECTION

The Planning Section is responsible for matters pertaining to overall planning and coordination of telecommunication projects; evaluation and status of project progress; formulation, execution and control of the budget for telecommunication projects; supply demand program for office equipment for telecommunications; opening, abolition and changing of telegraph and telephone circuits; and other matters not specifically assigned to other sections in the Bureau.

DEMAND RESEARCH SECTION

The Demand Research Section is responsible for matters pertaining to research on development of telecommunication projects; collection of data for telecommunications; estimation and decision of demand for communications; statistics on telecommunication projects; and research and study for the improvement of telecommunications systems.

DOMESTIC BUSINESS SECTION

The Domestic Business Section is responsible for matters pertaining to domestic telegraph and telephone operations; decision and revision of telephone installation areas; certifying qualifications of wire telegraph operators and technicians; calculation and adjustment of telegraph and telephone charges; licensing of private wire telegraph and telephone facilities; and the operation of telephone and telegraph circuits.

INTERNATIONAL BUSINESS SECTION

The International Business Section is responsible for matters pertaining to opening, abolition and changing of international telecommunications circuits; admission of international telegraph; establishment and settlement of international telegraph charges; and agreements and international cooperation for international telecommunications.

ENGINEERING BUREAU

The Engineering Bureau shall have a Planning Section, an Inside Plant Section, and Outside Plant Section and a Long Lines Section.

PLANNING SECTION

The Planning Section is responsible for matters pertaining to the construction, maintenance, and preservation planning of telecommunications facilities; consolidation of construction projects; demand-supply program for equipment and materials for telecommunication facilities; formulation, execution and control of budget for telecommunication facilities; evaluation of the management performance of telecommunications facilities; and other matters not specifically assigned to other sections in the Bureau.

INSIDE PLANT SECTION

The Inside Plant Section is responsible for matters pertaining to design, construction, maintenance, and preservation of telecommunication machines, facilities, and power facilities; structure design and improvement of machines and facilities for telegraph and telephone offices; and examination of capacity of telecommunication machines, equipment and facilities.

OUTSIDE PLANT SECTION

The Outside Plant Section is responsible for matters pertaining to design, construction, maintenance, and preservation of telecommunications lines and related public works.

LONG LINES SECTION

The Long Lines Section is responsible for matters pertaining to design, construction, maintenance, and preservation of transmission and wireless facilities; capacity examination and transmission of telecommunication circuits; survey and decision of telecommunications methods; and control of circuits.

FINANCE BUREAU

The Finance Bureau shall have a Finance Section, a Business Accounting Section, a Procurement Section, and a Property Management Section.

FINANCE SECTION

The Finance Section is responsible for matters pertaining to management of revenue and expenditures; distribution of budget; and other matters not specifically assigned to other sections in the Bureau.

BUSINESS ACCOUNTING SECTION

The Business Accounting Section is responsible for matters pertaining to accounting of assets and liabilities; final cost calculation; improvement of enterprise accounting system; settlement of accounts; preparation of various financial tables; and evaluation of assets.

PROCUREMENT SECTION
